

Educational
Wooden Toys
2020

Introduction

We are delighted to introduce our 2019 range providing children around the world with toys that stimulate their imagination, increase their knowledge and enhance their mental and physical development.

We believe that a toy should not only be for playing but it is an important tool in the development of a child's self confidence, intelligence and creativity. Our toys are designed by specialists' who understand child development and how toys can stimulate that development at each stage of a child growth.

We use only the best, natural, high quality materials which include European beech wood and German paints and varnishes. All the different stages in making and packaging our high quality products are carried out in our own factories.

Edu fun® has been expanding lately. We have Subsidiaries companies in Australia and KSA beside Dubai and Egypt. Our products are available in more than 25 countries through our Distributes.

Welcome to our World

The background of our company goes back a long way, as the founders were educators with many years of experience in establishing schools. They believed in education as the best way for developing societies and people. This belief was the motivation to establish our company, and is still driving it through years and years of success.

Children are our priority

EduFun® products are always designed with children in mind. With our experience in the educational field, we understand carefully children's needs and how classroom furniture can stimulate their development. Classrooms should be inviting, environments that make children feel good to be there.

We listen carefully

At EduFun®, we strive to serve and support our customers around the world. We always listen to our customers concerns and demands. We develop our products upon their needs. You will find our furniture is modular and able to adjust in order to be able to change the learning environment all the time.

We care about our environment

Since the first day, we chose to use wood in our production, to create a healthy warm environment for children. Wood is the most environmentally friendly raw material, which are healthy for our climate, prevent climate changes and has Zero Waste. The beauty of wood is that it engages all of our senses. It is warm, rich and affecting, and its surface has a tactile and sensuous strength. We use real wood from sustainable forestry to help protect our environment. Contributing to the preservation of the environment is almost of our responsibility.

Production

Since EduFun® first began, we have been expanding our production lines to fulfill growing demand. Likewise, the collections of the EduFun® range have been continuously expanding to meet our customers' desires.

New state of the art machines have been added to our production lines offering quality and on-time production. We are able to develop new product ranges with the execution of OME products with our factories and our four production lines (solid wood, panel board, tube bending, wooden toys and puzzle).

- 1- Solid Wood Production Line
- 2- Panel Board Production Line
- 3- Tube Bending Production Line
- 4- Educational Resources Production Line

Materials

EduFun® aims to build sustainable long-lasting furniture for the most active and ruthless children. Besides smart designs, durability depends on using the highest quality materials. To that end, EduFun® imports high quality natural European Beechwood and the longest lasting non-toxic German paints safety lacquers. We spare no expense to make certain you're getting the best products made of the highest quality materials.

Introduction

Design

EduFun® designs furniture for preschool and kindergarten children, for educators, for learning institutions, to make everyone at your school safe, happy and comfortable from the start of the day till the last moment of the day.

EduFun® designs are synonymous with creative, versatile, and practical learning spaces. Our Research and Development Department has collaborated with experts from all-over the world to research, develop and create innovative products.

Ergonomically designed furniture for growing children. Storage units of all kinds for organized and efficient classrooms. Reading Centres, play corners and role play furniture for a complete and holistic learning experience. The finest materials, vibrant Colours and exquisite textures come together for relentless beauty. Durability for furniture that looks new for years to come. EduFun® designed for you all that you dream of in your preschool and kindergarten learning spaces.

The colours, design & specifications in this catalogue may not corresponded to the actual ones. Edu fun reserves the right to change any specifications and make upgrades of its products at any time without notice. Information in this catalogue was correct at the time of printing. While our team has made every effort to ensure the accuracy of information, Edu fun cannot accept any responsibility for any errors or omissions and this catalogue does not oblige of any form of contract.

Dreams can come true

We have a very wide range of products that can provide any customer with what they need. Our products vary from chairs, tables, storage units, platforms and role play furniture. However, sometimes special specifications are requested. With our production capabilities, we can make your dreams come true.

International Standards

EduFun® is keen on our childrens' health and for that reason the product range and production facilities are certified by meeting the latest high international standards of safety such as:

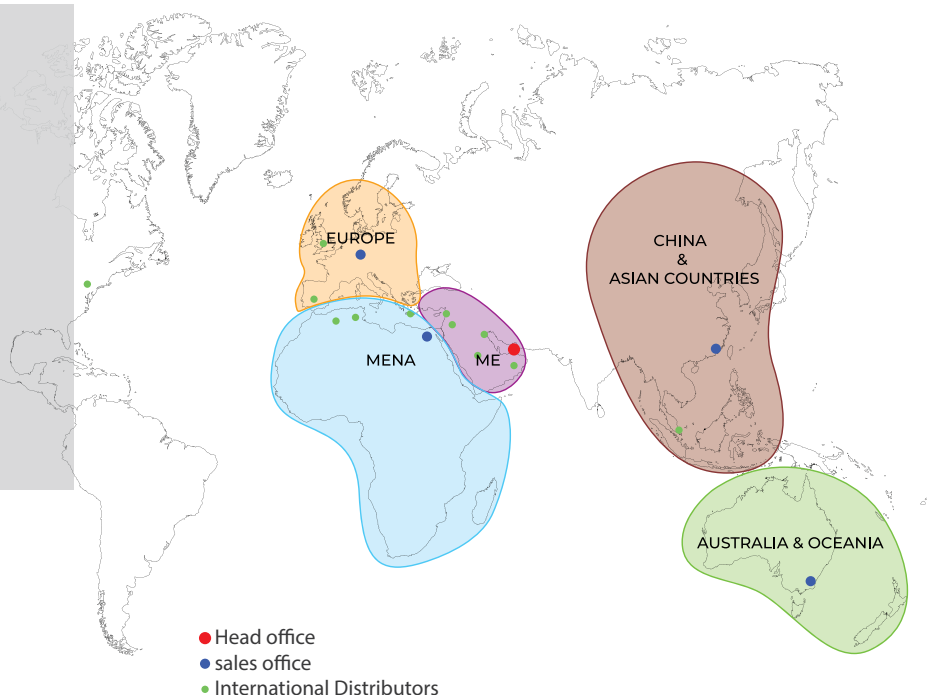

- EN 71
- ANSI/BIFMA
- ISO 9001
- ISO 14001
- OHSAS 18001

- ISO 9001
- ISO 14001
- OHSAS 18001

Central Locations

Edu fun® group is streamlining its activities to keep pace with the growing markets and is becoming a leader in the region and as an international player. As a place to do business, and as a hub for the region and beyond, the United Arab Emirates (UAE) continues to be increasingly important, relevant and attractive to businesses from around the world. For these reasons, we have moved our head office to UAE. EduFun® produces and ships from Egypt, the historic hub of trade and shipments. With its northern ports on the Mediterranean Sea to serve Europe and the Americas and eastern ports on the Red Sea to serve Africa, Asia and Australia is centrally located, meaning you get your order in record time.

Visit Us

Our customers are warmly invited to visit our factory in Egypt or any of our subsidiaries in Germany, Australia or China. We are pretty sure that visiting our integrated manufacturing complex will leave a positive impression on you.

We are not just a manufacturer but we are artists as well. You can feel yourself that when you meet in person with our skilled workers under a supervision of well-educated professional engineers and how they are working with the latest technological machinery and how they turn a piece of tree into a piece of art.

What benefits can you get from buying from us?

Zero Customs duty is one of the most advantages that you can get if you import directly from Egypt and that's why we have established our factory in Egypt from the early beginning as Egypt is a signatory to several multilateral trade agreements, which give a great potential to its export products. The following are the "Trade Agreements" which between Egypt as country of Export and the whole world :

- Egypt - EU Partnership
- Mercosur Agreement
- COMESA Agreement
- EFTA Agreement
- Egypt – Turkey Free Trade Agreement
- Agadir Agreement
- League of Arab States
- Generalized system of preferences (G.S.P)
- Generalized System of Trade Preferences (G.S.T.P)

Interaktiv

'Sea and Coast' is the name of this new set of educational toys dedicated to the human activities at sea and the related coast. Each toy is like a knot in an interactive imaginary web acting as an inviting toy system for children to stimulate creative thinking and role-play in many exiting roles. Children are not only mere observers of the world of the grown-ups. They are inventive story tellers as well as role players forming an essential part of their development to let them discover and understand their own position in the complicated hierarchies and interactions in human relations. Each toy can be stored in its own durable wooden box and at the same time all boxes are an essential part of the toy. They play an important role in the creative interactive play between the toys. All boxes and all toys have standardized 8mm holes in which several toys can be positioned and some boxes have special slots to position the toy it stores during the play.

Infants & Toddlers

From the very beginning of their life, children's curiosity is insatiable. They want to see, touch, taste and explore everything around them. What better way than providing them with the tools to guide them in a safe, enjoyable way.

At Edu fun® we have educational toys that are suitable to keep even the busiest of minds and hands satisfied as they explore their world and unconsciously developing their, spatial, body-kinesthetic, linguistic, interpersonal intelligence and much more.

Educational Toys

The early Pre-school years before formal education are the most formative for children. Their little minds are wide open and ready to accept any knowledge and information that they are subjected to. Edu Fun® believes that enhancing and advancing children's development during these crucial years is essential to build up strong foundation for a life-time of learning success. Edu Fun® has designed products for both pre-school and older children to help them explore and discover their world.

Pcs : 5 Pieces + wooden base

Size : 12.5 X 12.5 X 27.5 cm

Age 3+

Dramatic Play

Step into the world of a child's imagination. Games include playing house, going shopping, having a tea party for a favourite teddy or playing doctor for an injured doll. Children have a very good sense of imagination and dramatic play tools enhance this sense. Role-play may appear to be a very simple activity, yet through it, young children learn practical life skills and building their character. Whatever the imaginative game they have conjured up, we have the toys, kits, puppets and scaled down models, which helps their imagination to come alive.

Modern Theater 21560

Size : 91 X 35 X 167 cm

Fun Pretend Iron Set 21565
