Introduction

Welcome to our World

The background of our company goes back a long way, as the founders were educators with many years of experience in establishing schools. They believed in education as the best way for developing societies and people. This belief was the motivation to establish our company and is still driving it through years and years of success.

Children are our priority

EduFun® products are always designed with children in mind. With our experience in the educational field, we carefully assess children's needs and how classroom furniture can stimulate their development. Classrooms should be inviting environments that make children feel good to be there.

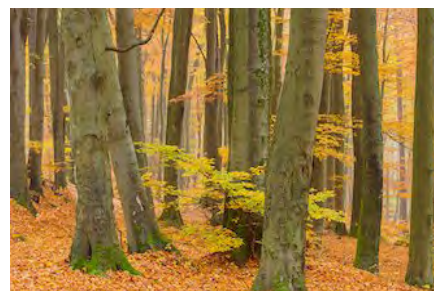

We listen carefully

At EduFun®, we strive to serve and support our customers around the world. We always listen to our customers' concerns and demands. We develop our products upon their needs. You will find our furniture is modular and adjustable to be able to change the learning environment all the time.

We care about our environment

Since the first day, we chose to use wood in our production, to create a healthy warm environment for children. Wood is the most environmentally friendly raw material, which is healthy for our climate, prevents climate change and has zero waste. The beauty of wood is that it engages all our senses. It is warm, rich and affecting, and its surface has a tactile and sensuous strength. We use real wood from sustainable forestry to help protect our environment. We consider it our responsibility to contribute to the preservation of the environment.

Production

Since EduFun® first began, we have been expanding our production lines to fulfill growing demand. Likewise, the collections of the EduFun® range have been continuously expanding to meet our customers' desires.

New state-of-the-art machines have been added to our production lines offering quality and on-time production. We can develop new product ranges with the execution of OME products with our factories and our four production lines (solid wood, panel board, tube bending, wooden toys and puzzle).

- 1- Solid Wood Production Line
- 2- Panel Board Production Line
- 3- Tube Bending Production Line
- 4- Educational Resources Production Line

Materials

EduFun® aims to build sustainable long-lasting furniture for the most active children. Besides smart designs, the durability depends on using the highest quality materials. To that end, EduFun® imports high quality natural European beechwood and the longest lasting non-toxic German lacquers. We spare no expense to make certain you're getting the best products made of the highest quality materials.

Introduction

Design

EduFun® designs furniture for preschool and kindergarten children, for educators, and for learning institutions to make everyone at your school safe, happy and comfortable from the start of the day until the last moment of the day. EduFun® designs are synonymous with creative, versatile, and practical learning spaces. Our Research and Development Department has collaborated with experts from all over the world to research, develop and create innovative products. Our products include ergonomically designed furniture for growing children, storage units of all kinds for organised and efficient classrooms, and reading centres with play corners and role play furniture for a complete and holistic learning experience. The finest materials, vibrant colours and exquisite textures come together for relentless beauty and the high durability of our furniture will look new for years to come. EduFun® designed for you all that you dream of in your preschool and kindergarten learning spaces.

Please note: The colours, design and specifications in this catalogue may not correspond to the actual ones. EduFun® reserves the right to change any specifications and make upgrades of its products at any time without notice. Information in this catalogue was correct at the time of printing. While our team has made every effort to ensure the accuracy of information, EduFun® cannot accept any responsibility for any errors or omissions and this catalogue does not oblige any form of contract.

Dreams can come true

We have a very wide range of products that can provide any customer with what they need. Our products vary from chairs, tables, storage units, platforms and role play furniture. However, sometimes special specifications are requested. With our production capabilities, we can make your dreams come true.

International Standards

EduFun® is keen on our children's health and for that reason the product range and production facilities are certified by meeting the latest high international standards of safety such as:

- BS EN 1729
- ANSI/BIFMA
- ISO 9001
- ISO 14001
- OHSAS 18001

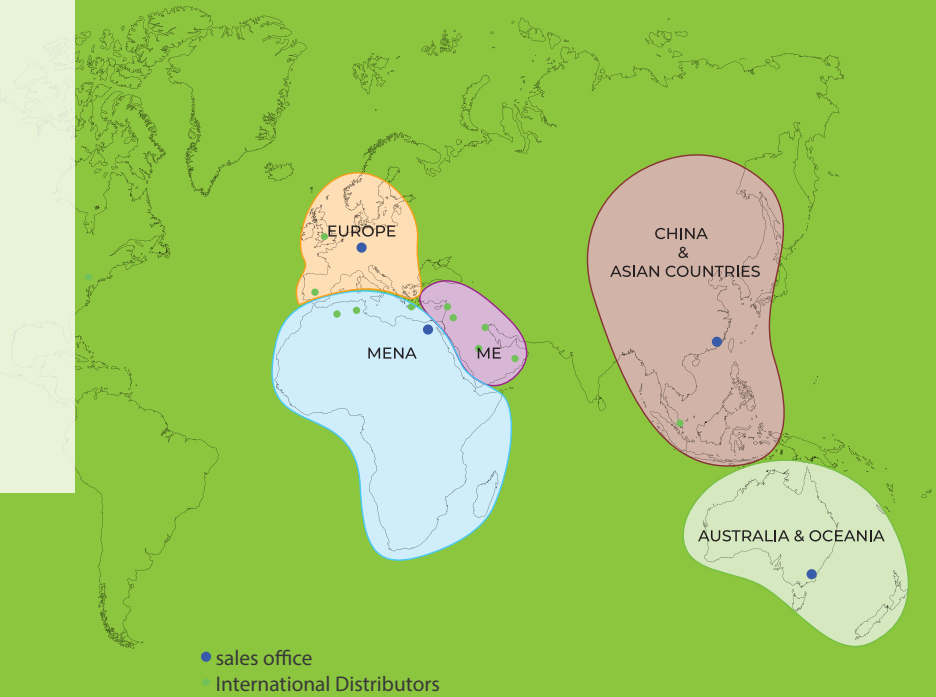

BS EN 1729
For dimensions

ISO 9001
ISO 14001
OHSAS 18001

Central Locations

EduFun® group is streamlining its activities to keep pace with the growing markets and is becoming a leader in the region and as an international player. As a place to do business, and as a hub for the region and beyond, the United Arab Emirates (UAE) continues to be increasingly important, relevant and attractive to businesses from around the world. For these reasons, we have moved our head office to UAE. EduFun® produces and ships from Egypt, the historic hub of trade and shipments. Our shipping ports are centrally located, with northern ports on the Mediterranean Sea serving Europe and the Americas and eastern ports on the Red Sea serving Africa, Asia and Australia, meaning you get your order in record time.

Visit Us

Our customers are warmly invited to visit our factory in Egypt or any of our subsidiaries in Germany, Australia or China. We are sure that visiting our integrated manufacturing complex will leave a positive impression on you. We are not just a manufacturer, but we are artists as well. You can feel that yourself when you meet in person with our skilled workers under the supervision of well-educated professional engineers, seeing how they are working with the latest technological machinery and how they turn a piece of tree into a piece of art.

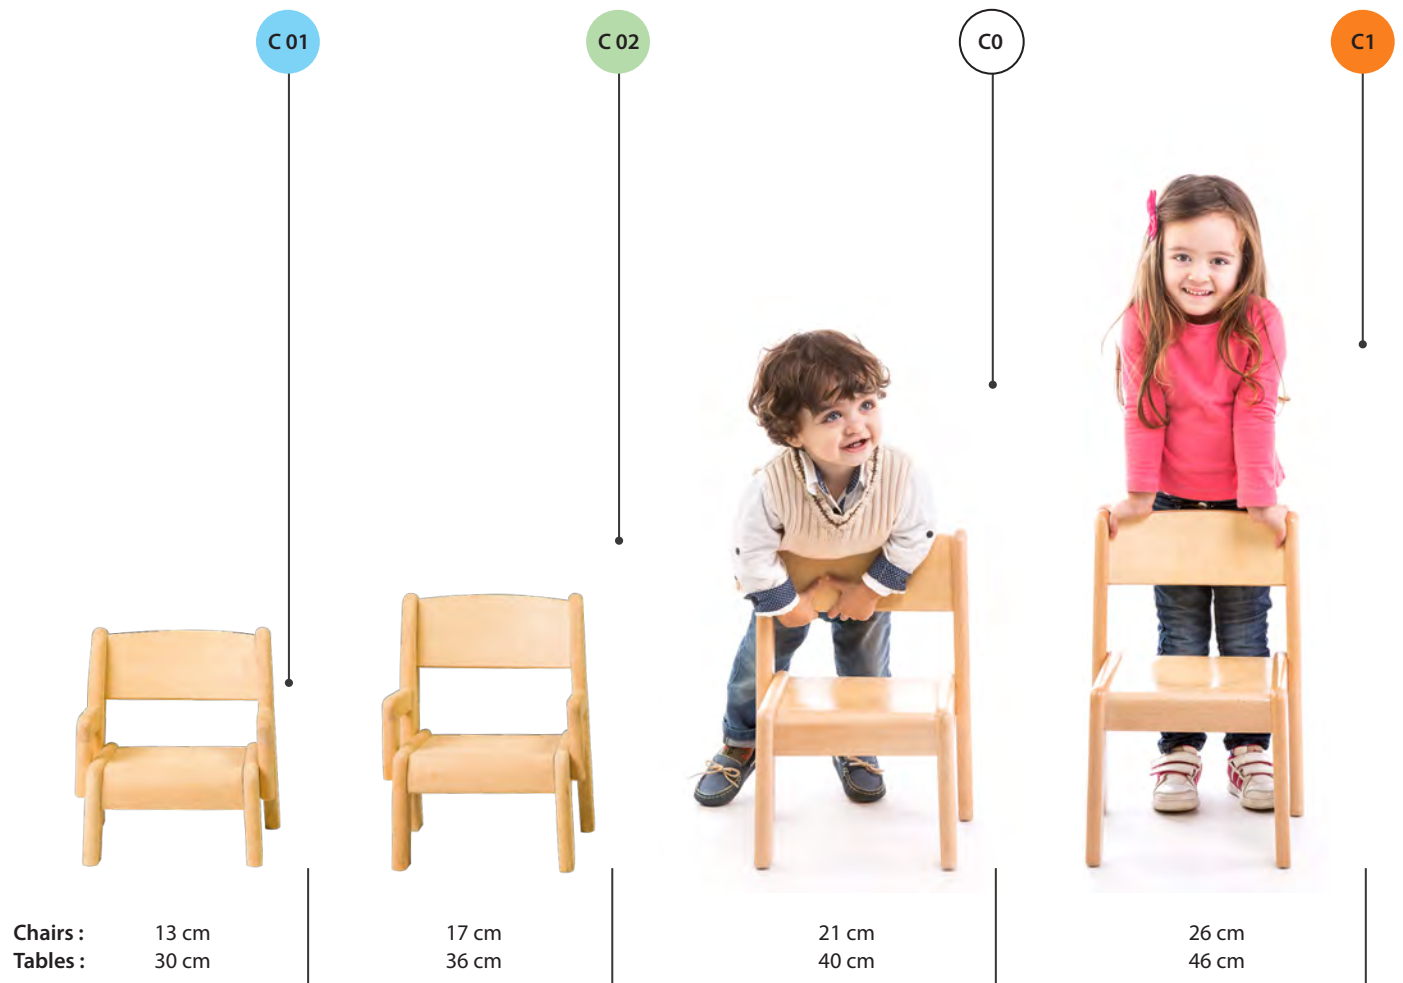

What benefits can you get from buying from us?

Zero cCustoms duty is one of the most biggest advantages that you can get if you import directly from Egypt and that's why we have established our factory in Egypt from the early beginning; as Egypt is a signatory to several multilateral trade agreements, which give a great potential to its export products. The following are the "Trade Agreements" which between Egypt as country of eExport and the whole world:

- Egypt - EU Partnership
- Mercosur Agreement
- COMESA Agreement
- EFTA Agreement
- Egypt – Turkey Free Trade Agreement
- Agadir Agreement
- League of Arab States
- Generalized system of preferences (G.S.P)
- Generalized System of Trade Preferences (G.S.T.P)

European standards

We design all our furniture collection according to the European standards for chairs and tables for educational institutions, which was approved in January 2007. Children should always use the appropriate size of chairs or table to ensure good posture and prevent causing problems or distortions for them while growing. Ergonomic seating requires adjustable furniture to suits different body heights.

In this table you can choose the correct seat and table height suitable for the student age:

Harmony Line

**Natural European Beechwood:
The Classic Natural European Wood Series.**

Ergonomically Solid European beechwood chairs and table frames. Natural European birch plywood seat and back rest.

The harmony line has been developed with a vast range of products so you can create a natural looking environment, which helps children to learn efficiently. The construction and materials used ensures that it will last forever. With all modular designs, the natural look of our pieces transform classes into creative expressions, with infinite arrangements, and infinite possibilities. It is ergonomically designed for active children in their early years to gently encourage healthy posture.

Tables:

Tops made from:

- 22 mm thick MDF - (Medium Density Fibreboard).
- Laminated with HPL (High Pressure Laminate) with high scratch and shock resistance surfaces.
- New designed solid wood edges, curved and rounded for safety. No grooves when tables grouped or combined.
- Varnished solid beech wood edges, curved and rounded for safety.
- Available in wood grain and beige colours.
- 5 years guarantee.

Table frame made from:

- Varnished solid beechwood with rounded corners (according to European standards).
- Legs are fitted with glides to provide floor leveling and reduce noise.
- Legs come unassembled and can be easily fixed to the table tops frame using the strong metal fixing bracket.

Wooden Chairs

- Frame made from European beechwood.
- Seat and backrest made from curved multi-layered birch plywood.
- Comes assembled.
- Multi stack chairs.
- Wide range of seat and backrests available in natural or coloured range.
- Legs have a glide to protect floors and reduce noise.
- Very strong and can hold the weight of an adult.
- 5 years guarantee.

Harmony Line

We suggest the Elegance Table with the Elegance Chair or Deluxe Chair as the main choice in the harmony line. Any wooden chair - from our collection - can also be used with our Elegance Table. (pPage 26 to 33).

Harmony Line

Elegance Tables

Our lines of Elegance Tables come packed flat for your convenience. The tables are easily assembled with the simple instructions provided. When correctly assembled, our tables are solid, stable and durable. Tables come in 5 convenient heights and 6 functional shapes. All our tables are modular and can be arranged in many different configurations. Legs and rails are made of either:

- Solid wood.
- Metal.

Plastic glides or coasters can be added upon your request. Tabletops are made from extremely strong medium density fibreboard (MDF) laminated with high pressure laminate (HPL) (22 mm). Edges made from solid beechwood with protective varnish. They are gently smoothed and lightly rounded to avoid any risk or injury.

- Supplied unassembled

22mm MDF Laminated HPL solid beech edges

Tabletops 22mm thickness are made from extremely strong medium density fibreboard (MDF) insulation, which is stiff, has no knots and has fine edges. The tops are also laminated with high pressure lamination HPL (under heat [80-90 Celsius] and pressure [250 kgs/m²]). No added formaldehyde (NAF). Ivory colour or beige wood theme. Edges made from solid beechwood painted with protective varnish, with safe and gently and rounded edges.

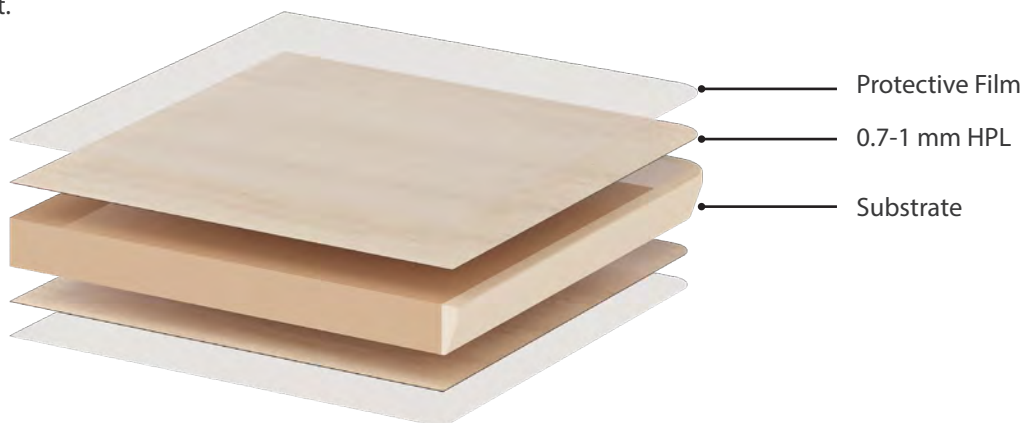

A Special rounded Edge design without spacing when tables are grouped (shark nose Edges)

Easy to clean

HPL VS. MELAMINE

High Pressure Laminate is commonly referred to as HPL and is manufactured under 1000kg per-square-metre of pressure pressing down on 6 to 8 layers of kraft paper bonded with phenolic resin glue, then topped by a polymer facing. Applications include bench-tops, joinery, wall panelling, lockers, and tables where scuff resistance is prominent important.

When you purchase HPL sheets, it is generally not attached to a substrate such as MDF or craft wood. Attaching it to a timber substrate is an entirely separate process which that is commonly referred to as "laying up the laminate". It should be attached to a dense substrate (base wood layer) for best results. We use moisture resistant Medium Density Fibreboard (MDF) as the substrate and ABET High-Pressure Laminates as the decorative surface. This results in the best possible finish with maximum durability.

Harmony Line

Elegance Tables

Wooden Legs

There are 5 different heights for these wooden legs, which is convenient to children of different heights. These tables come packed flat for your convenience. The tables are easily assembled with the simple manual instructions provided.

Classic S Chair

This chair combines all the advantages of the classic chair in addition to stacking. It is a top quality, colourful chair that will last for generations. The frame is made of solid beechwood and the seat is made from coloured laminated MDF boards. This durable chair can easily bear the weight of an adult to stand on. Leg-tips have plastic caps to prevent noise and marring of floor surfaces when moved.

Classroom **Fit Outs**

We offer custom designed room plans to fit your needs. We have a team of experts to translate your vision into functional yet inspirational learning spaces. Here are some ideas for how you can use our Harmony Line furniture pieces to create integrated kindergarten classrooms.

PrimeLine

Metal tube frame & birch plywood seat & backrest.

The Metal Framed Series.

Ergonomically rigged mMetal tubes cChairs and table frames. Natural bBirch pPlywood seat and back rest.

Using our prime line range helps you create an evolving learning space for children to grow and develop confidently in. Durable wooden tables and chairs with metal frames ensure years of durability. Modular and ergonomically designed for years of safe and efficient kindergarten furniture. The wide range of colours available gives you the flexibility to create many classroom outfits that satisfy all tastes.

Tables:

Tops made from:

- 22 mm thick MDF (Medium Density Fibreboard), laminated with HPL (high pressure laminate)
- Tabletops are available in wood grain and beige colour, with high scratch and shock resistant surfaces.
- Newly designed solid wood edges are curved and rounded for safety. No grooves when tables are grouped together or combined.

Table frame made from:

- Table frame and legs are made from rigged welded metal tubes, with strong scratch resistance with electrostatic powder coating.
- Metal lLegs are fitted with glides to protect floors, provide floor leveling and reduce noise.
 - Table fFrame comes assembled. Tabletops are easily fixed to the metal frame using threaded metal insert and screws.

- 5 years gGuarantee.

Chairs

Frame made from rigged metal tubes with strong scratch- resistantce epoxy paints.

- Seat and back rest made from ergonomically curved, multi layered Birch Plywood.
- Special leg design provides stability
- Metal frames are fitted with glides to protect floors and reduce noise.
- Multi stack cChairs.
- Comes assembled.
- Wide range of natural look and colours range

available (for chair frame, and for seats and back rest). Very sStrong and can hold the weight of an adult.

- 5 years gGuarantee.

Prime Line

We suggest the Ultra Table with Simple Chair as the main choice in the prime line. Any wooden chair with metal frame - from our collection - can also be used with our Ultra Table (page 44 to 45).

Prime Line

Ultra Tables

This range offers durable tables with metal frame and two options of laminated tabletop with natural edge colour. The plastic glides are for soft and hard floors. Castors are available on one side for easy moving.

22mm MDF Laminated HPL solid beech edges

Tabletops 22mm thickness are made from extremely strong medium density fibreboard (MDF) insulation, which is stiff, has no knots and has fine edges. The tops are also laminated with high pressure lamination HPL (under heat [80-90 Celsius] and pressure [250 kgs/m²]). No added formaldehyde (NAF). Ivory colour or beige wood theme. Edges made from solid beechwood painted with protective varnish, with safe and gently and rounded edges.

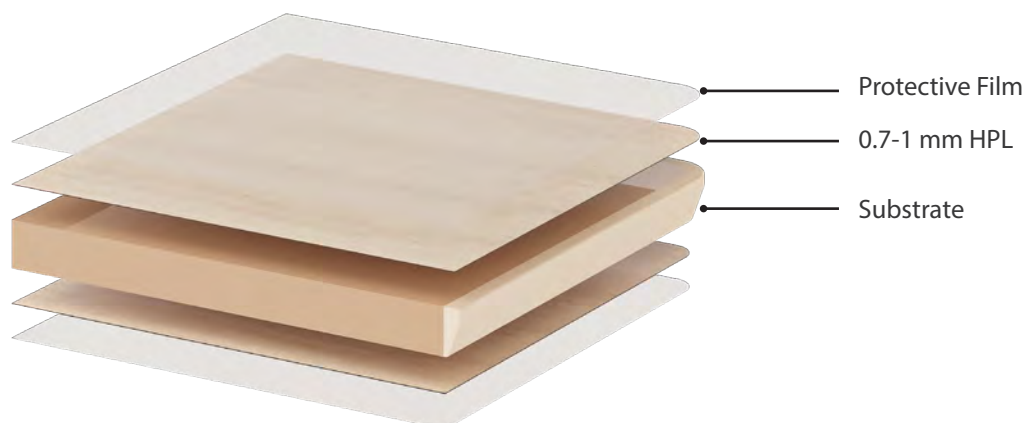

A Special rounded Edge design without spacing when tables are grouped (shark nose Edges)

Easy to clean

HPL VS. MELAMINE

maximum durability. High Pressure Laminate is commonly referred to as HPL and is manufactured under 1000kg per square-metre of pressure pressing down on 6 to 8 layers of kraft paper bonded with phenolic resin glue, then topped by a polymer facing. Applications include benchtops, joinery, wall panelling, lockers, and tables where scuff resistance is important.

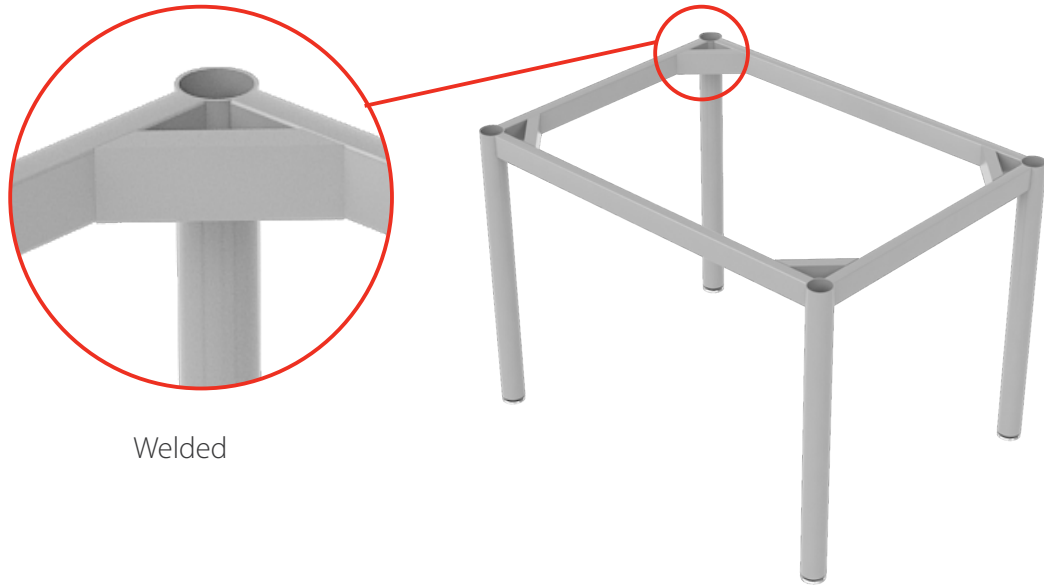

When you purchase HPL sheets, it is generally not attached to a substrate such as MDF or craft wood. Attaching it to a timber substrate is an entirely separate process that is commonly referred to as "laying up the laminate". It should be attached to a dense substrate (base wood layer) for best results. We use moisture resistant Medium Density Fibreboard (MDF) as the substrate and ABET High-Pressure Laminates as the decorative surface. This results in the best possible finish with maximum durability.

Prime Line

Metal Legs / Rails

There are five different heights for these metal legs, which is convenient to children of different heights. These tables come packed flat for your convenience. The tables are easily assembled with the simple instructions provided.

Flexo Tables

These flexible movable creative tables combine contemporary looks and, functionality, as well as flexibility and that encourages social behaviour, creativity and cooperation among students. It comes in a variety of unique shapes and sizes. Each shape and size has its merits and benefits, depending on the learning situation. Tables can be combined with each other or with other tables, combining a multitude of layouts to create an attractive look. Tables are made of medium-density fibreboard (MDF) covered by high-pressure laminate (HPL). Legs are either fixed or adjustable to offer different heights, an advantage for mixed-age groups.

As everyone has his/her own choices, we have enabled you to choose your table just as you like! Choose the table-top material and then decide if you want a fixed or adjustable leg. Also, you can decide if you want coasters (in two legs) or glides.

Easy to clean

Stool & Benches

Our smart variety of stools and benches allow for more space in any learning environment. Comfortable yet practical stools and benches will suit almost anyone's needs. They are gentle on the floor due to the plastic glides, even after years of use. Their construction assures strength, stability and support.

Stool & Benches

Stool

A very high-quality piece of furniture. This stool is made of solid bBeechwood frame and plywood seat. Stool legs have double dowel connection lines to guarantee maximum stability. Curved leg design has no corners on which little ones can get themselves caught. Easy to assemble for storage. The neutral tone makes them perfect companions with many of our tables. The doweled plastic glides ensure no marks or divots are left on the floor even after years of use.

Soft Play

Studies show that active play aids a child's physical, mental, social and emotional well-being as they mature. Soft play corners are the most comprehensive and safe ways for children to develop. Our collection of soft play pieces are designed to give children a safer place to play. Our collection of soft play suits little children and offers them endless hours of fun and joy.

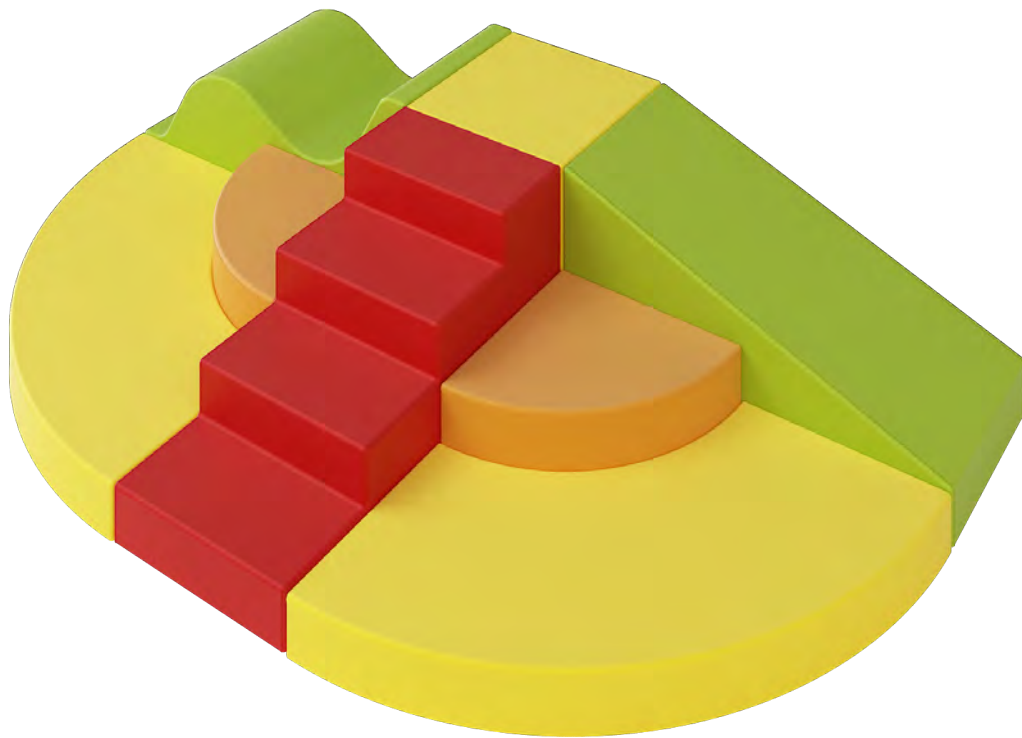

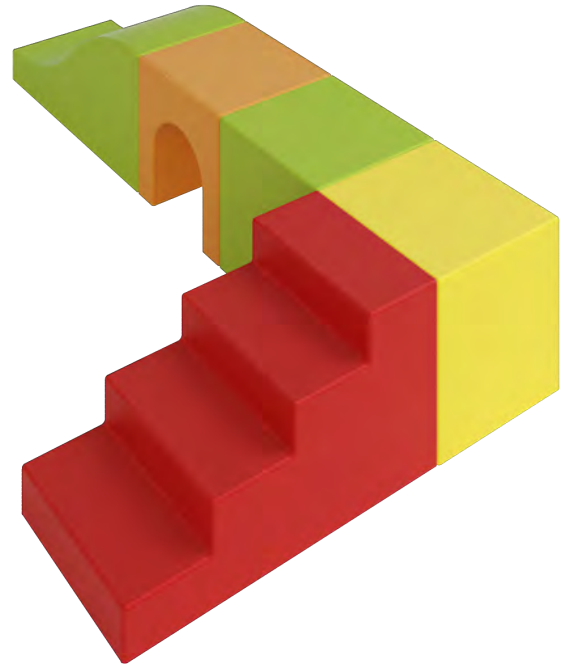

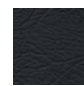

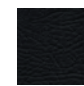

Soft Play

Multi Activity Soft Play

Children will have a lot of fun with these geometric shapes. Each shape's edge invites another shape to nestle, encouraging interactive play among the soft shapes. The warm natural colours help children to relax and concentrate. Made of high-density foam covered with leather. Easy to clean with soapy water. Recommended for ages between 3 and 6 years.

Soft Play

Room Dividers

High quality, durable and functional wood modular room dividers. With these dividers, the creation of a separate play areas within a large room will be easy. These dividers are ideal for organising classroom areas and creating a variety of spaces for playing, reading, drawing and so on. Also, they are great for creating an infant or child play area as a self-contained area. In addition, children can have fun with these dividers, as they can write on the whiteboard or colour on the transparent surface. The frame is made of high-quality beechwood.

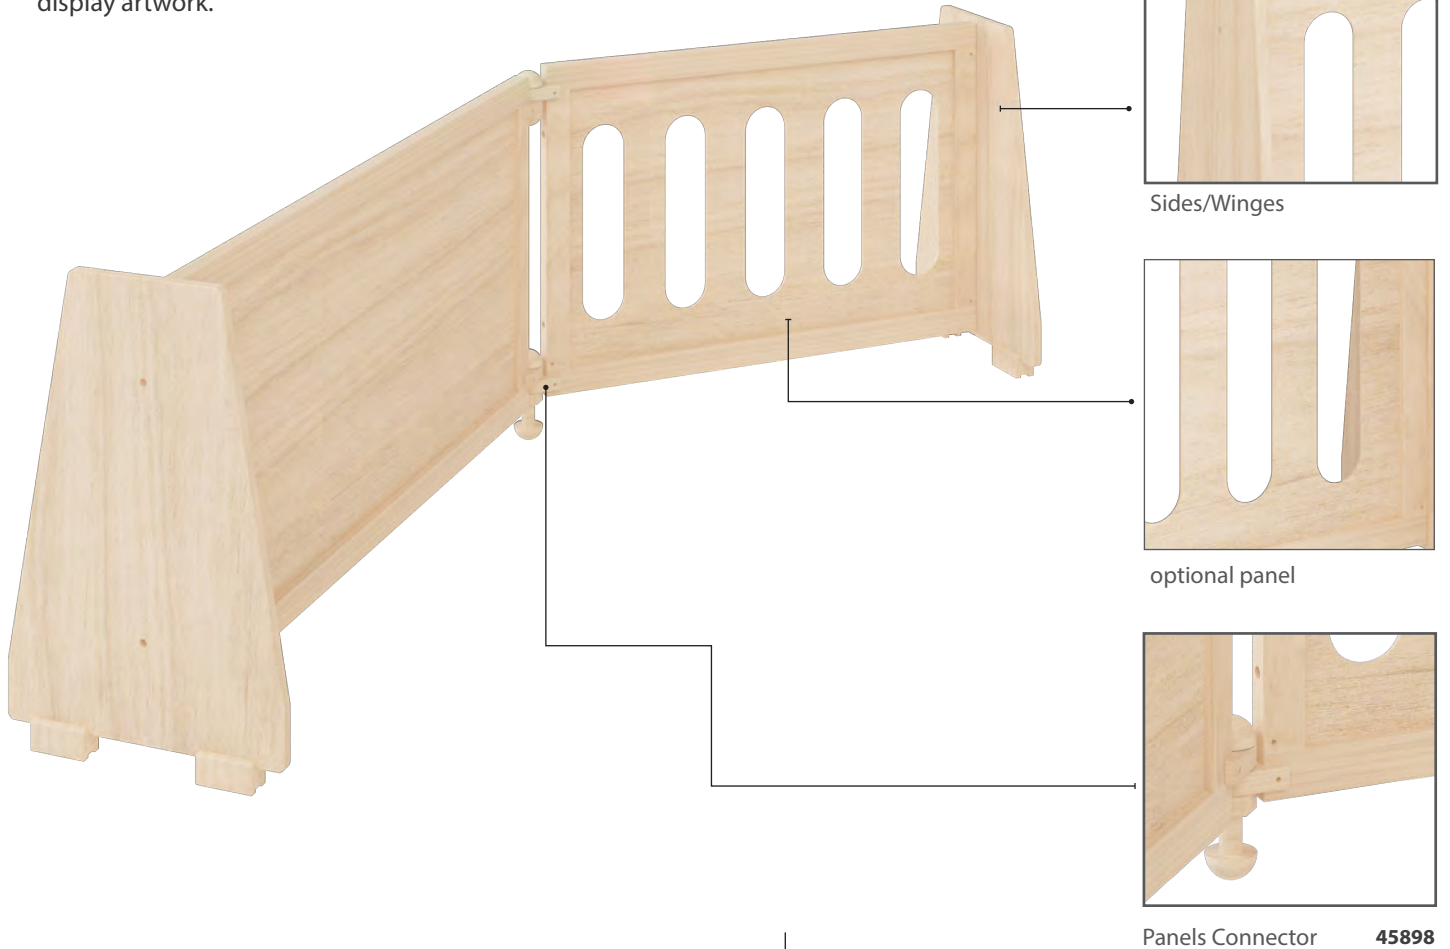

Room Dividers

Room Dividers Units

Classroom spaces should be flexible by using mModular panels and shelving units to create room dividers, define spaces, and establish boundaries. Panels can be more than dividers. The see-through pPanel will give you a connection with children while they play. Attach mirror, clear or cork cover to any room panels to add vVisual motivation or display artwork.

Platform

An ideal way to create the best play area for children. Platforms create interest, height differentiation and lots of fun. Made of solid beechwood for durability. Our platforms promote balance and spatial cognition because children must move in many ways to manoeuvre the platforms.

Platform

Large Platform

These platforms are available in 9 shapes in 3 different heights. The varying heights encourage movement for children. It can also be used as a playing corner. Handles are available to move and carry easily. High units have a tunnel system to add more fun for children to crawl under. Surfaces are covered with heavy-duty carpets or a safe mirror.

Toddler

The toddler years are a time of great cognitive, emotional and social development. Toddler children from 1 to 4 years need to have their own classroom furniture that embraces their physical development at this age. We have designed in this section a variety of chairs and tables, which will suit your needs every time.

Toddler

Chairs

Tables

Size Chart

We design all of our furniture collection according to the European standards for 'chairs and tables for educational institutions' which was approved in January 2007. Children should always use the appropriate size of chairs or table to ensure good posture and prevent causing problems or distortions for them while growing. Ergonomic seating requires adjustable furniture to suits different body heights.

In this table you can choose the correct seat and table height suitable for the student age:

BS EN 1729 European standards for chairs and tables

Children`s ages	0 - 2 yrs		2 - 3 yrs	2 - 4 yrs	4 - 6 yrs	6 - 8 yrs	8 - 11 yrs

Drama Centres

Imagination, going shopping, having a tea party for a favourite toy are some of the best activities children can have. Some children have interpersonal intelligence, which means they are sensitive to others' moods, feelings, temperaments and motivations, and their ability to cooperate in order to work as part of a group. This section helps to enhance interpersonal intelligence for children who need to break down walls of shyness and help those who have it already to excel with it, as they role play different characters.

Drama Centres

Children Play Kitchen

Our natural look kitchen set will make your home corner the most attractive in town! In this kitchen set we have combined play value with the highest quality, durability and, of course, value for money. There are 3 units in this set (Cooker/oven - Sink / Washing Machine - Fridge).
