Welcome to our World

Welcome to the EduFun® Furniture World. Explore our newly updated 2023 catalogue, featuring a variety of new products for preschool and early learning environments. With 25 years of experience in the global market, we are dedicated to fulfilling our mission of creating better early learning environments.

Children are our priority

At EduFun®, our products are always designed with the well-being of children in mind. With our background in education, we carefully evaluate children's needs and how our furniture can enhance their growth. Classrooms should be inviting spaces that make children feel comfortable and happy.

We listen carefully

At EduFun®, our goal is to serve and support our customers worldwide. We listen attentively to our customers' needs and desires, and we tailor our products to meet them. Our furniture is modular and adjustable, allowing for a flexible learning environment.

We care about our environment

From the beginning, we have chosen to use wood in our production process to create a healthy and warm environment for children. Wood is the most eco-friendly material, beneficial to the climate, helps combat climate change and creates zero waste. Its warmth, richness, and sensory appeal make wood a unique and beautiful material. We use real wood from sustainable forestry to help protect our planet and consider it our duty to contribute to environmental preservation.

Production

Since EduFun® first began, we have been expanding our production lines to fulfill growing demand. Likewise, the collections of the EduFun® range have been continuously expanding to meet our customers' desires.

New state-of-the-art machines have been added to our production lines offering quality and on-time production. We can develop new product ranges with the execution of OME products with our factories and our four production lines (solid wood, panel board, tube bending, wooden toys and puzzle).

- 1- Solid Wood Production Line
- 2- Panel Board Production Line
- 3- Tube Bending Production Line
- 4- Educational Resources Production Line

Materials

EduFun® aims to build sustainable long-lasting furniture for the most active children. Besides smart designs, the durability depends on using the highest quality materials. To that end, EduFun® imports high quality natural European beechwood and the longest lasting non-toxic German lacquers. We spare no expense to make certain you're getting the best products made of the highest quality materials.

Design

EduFun® designs furniture for preschools, kindergartens, educators, and learning institutions to create safe, comfortable, and happy spaces. Our furniture is ergonomically designed for growing children, includes efficient storage solutions, and features reading centers with play corners and role-play furniture for a well-rounded learning experience. Our Research and Development Department works with experts from around the world to research, develop, and create innovative products using the finest materials and vibrant colors. Our furniture is designed to maintain its beauty and durability for years to come. Please note: The colors, designs, and specifications in this catalogue may not match the actual products. EduFun® reserves the right to make changes and upgrades to its products at any time without notice. The information in this catalogue was accurate at the time of printing, but EduFun® cannot be held responsible for any errors or omissions. This catalogue does not establish a contractual agreement.

Dreams can come true

At EduFun®, we believe that dreams can come true, which is why we offer a wide range of products that can meet any customer need. Our product line includes chairs, tables, storage units, platforms, and role play furniture, but we also offer custom production services to fulfill special specifications.

International Standards

At EduFun®, we prioritize the health and safety of children, which is why we ensure that all of our products and production facilities meet the latest international standards for safety. Our products are certified to meet standards such as

- BS EN 1729
- ANSI/BIFMA
- ISO 9001
- ISO 14001
- OHSAS 18001

European standards

All of our furniture collections are designed in accordance with European standards for chairs and tables in educational institutions. Our chairs and tables are designed to promote good posture and prevent any problems or distortions as children grow. Our furniture is adjustable to accommodate different body heights, making it ergonomically designed for active children in their early years.

BS EN 1729 European standards for chairs and tables

HarmonyLine

**Natural European Beechwood:
The Classic Natural European Wood Series.**

Ergonomically Solid European beechwood chairs and table frames. Natural European birch plywood seat and back rest.

Our Harmony Line is designed with natural European beechwood and features ergonomically designed chairs and tables. The classic natural European wood series is constructed with solid European beechwood frames and natural European birch plywood seat and backrest. The Harmony Line offers a wide range of products that can help create a natural and efficient learning environment. With its modular design, the natural look of our furniture can be transformed into creative expressions, offering infinite arrangements and possibilities.

Tables:

Tops made from

- 22 mm thick MDF (Medium Density Fiberboard) and laminated with HPL (High Pressure Laminate) with high scratch and shock resistance surfaces.
- New designed solid wood edges, curved and rounded for safety, with no grooves when tables are grouped or combined.
- Varnished solid beech wood edges, curved and rounded for safety are available in wood grain and beige colors.
- Comes with a -5year guarantee. Table frame made from varnished solid beechwood with rounded corners (according to European standards).
- Legs are fitted with glides to provide floor leveling and reduce noise. Legs come unassembled and can be easily fixed to the table tops frame using a strong metal fixing bracket.

Wooden Chairs:

- Frame made from European beechwood.
- Seat and backrest made from curved multilayered birch plywood.
- Comes assembled.
- Multi-stack chairs with a wide range of seat and backrests available in natural or colored range.
- Legs have a glide to protect floors and reduce noise.
- Strong enough to hold the weight of an adult.
- Comes with a -5year guarantee.

We suggest the Elegance Table with the Elegance Chair or Deluxe Chair as the main choice in the harmony line. Any wooden chair - from our collection - can also be used with our Elegance Table. (Page 16 to 29).

Another shapes of Elegance Tables

Elegance Tables

Our Elegance Table line is shipped in a flat-pack for your convenience. Assembly is simple with the included instructions. The finished product is solid, stable, and durable. The tables come in 7 heights and 11 shapes, and are modular and can be arranged in various configurations. The legs and rails are made from solid wood or metal. Plastic glides or coasters can be added upon request. The table tops are 22mm thick, made from MDF and laminated with HPL. The edges are made from solid beechwood with a protective varnish, smoothed and lightly rounded for safety.

- Supplied unassembled

Table tops and legs are sold separately, allowing for flexibility and efficient inventory management. Any leg height can be paired with any tabletop shape.

22mm MDF Laminated with HPL Solid Beech Edges

Tabletops that are 22mm thick are made from extremely strong medium density fiberboard (MDF) that is stiff, knot-free, and has smooth edges. The tops are laminated with high-pressure laminate (HPL) using heat (80-90 Celsius) and pressure (250 kgs/m²). No added formaldehyde (NAF). Available in ivory or beige wood-themed colors. Edges made from solid beechwood and coated with protective varnish, featuring smooth and rounded edges for safety.

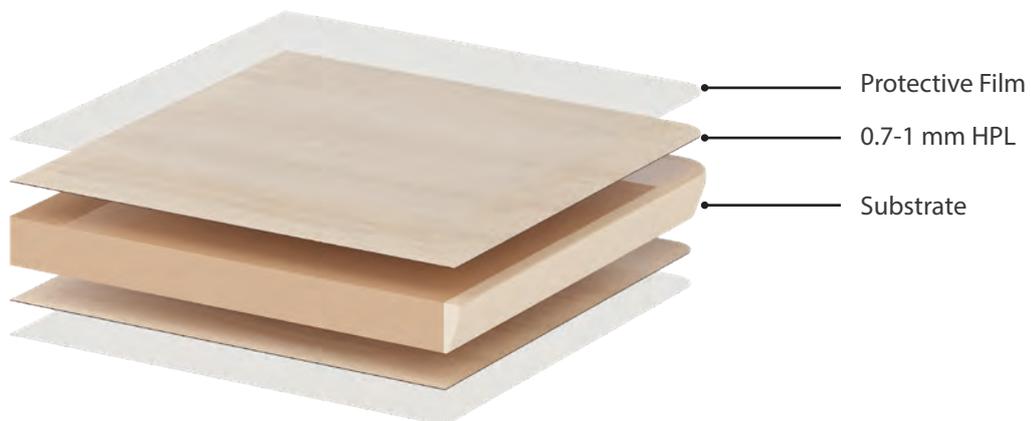

A Special rounded Edge design without spacing when tables are grouped (shark nose Edges)

Easy to clean

HPL vs. Melamine

High Pressure Laminate (HPL) is commonly referred to as HPL and is manufactured under 1,000 kg/m² of pressure, pressing down on 6 to 8 layers of kraft paper bonded with phenolic resin glue and topped by a polymer facing. It is used in applications such as bench-tops, joinery, wall paneling, lockers, and tables where scuff resistance is prominent and important.

When you purchase HPL sheets, they are generally not attached to a substrate such as MDF or craft wood. Attaching it to a timber substrate is a separate process commonly referred to as “laying up the laminate”. For best results, it should be attached to a dense substrate, such as moisture-resistant Medium Density Fiberboard (MDF), and combined with ABET High-Pressure Laminates for the decorative surface. This results in the best possible finish with maximum durability.

Elegance Tables

Wooden Legs

There are 7 different heights for these wooden legs, which are convenient for children of different heights. The tables come packed flat for convenience and are easily assembled with the simple manual instructions provided.

Stool & Benches

Our versatile collection of stools and benches provide ample space in any learning environment. Comfortable yet practical, they are suitable for various needs and gentle on the floor with plastic glides. Their strong construction ensures stability and support.

Stool

A high-quality stool made of solid beechwood frame and plywood seat. The legs have double dowel connections for maximum stability, with a curved design that eliminates corners where little ones can get caught. Easy to assemble for storage, with neutral tones that match many of our tables. Plastic glides prevent marks or divots on the floor, even after years of use.

Soft Play

Studies show that active play benefits a child's physical, mental, social, and emotional development. Soft play corners provide a safe and comprehensive way for children to develop. Our collection of soft play pieces offers children a safer place to play and provides endless hours of fun and joy.

Multi Activity Soft Play - Small

Young children will have fun with these geometric shapes. The edges of each shape invite another shape to nestle, encouraging interactive play. The warm natural colors promote relaxation and concentration. Made of high-density foam and covered in leather, they are easy to clean with soap and water. Recommended for ages 0 to 3 years.

Room Dividers

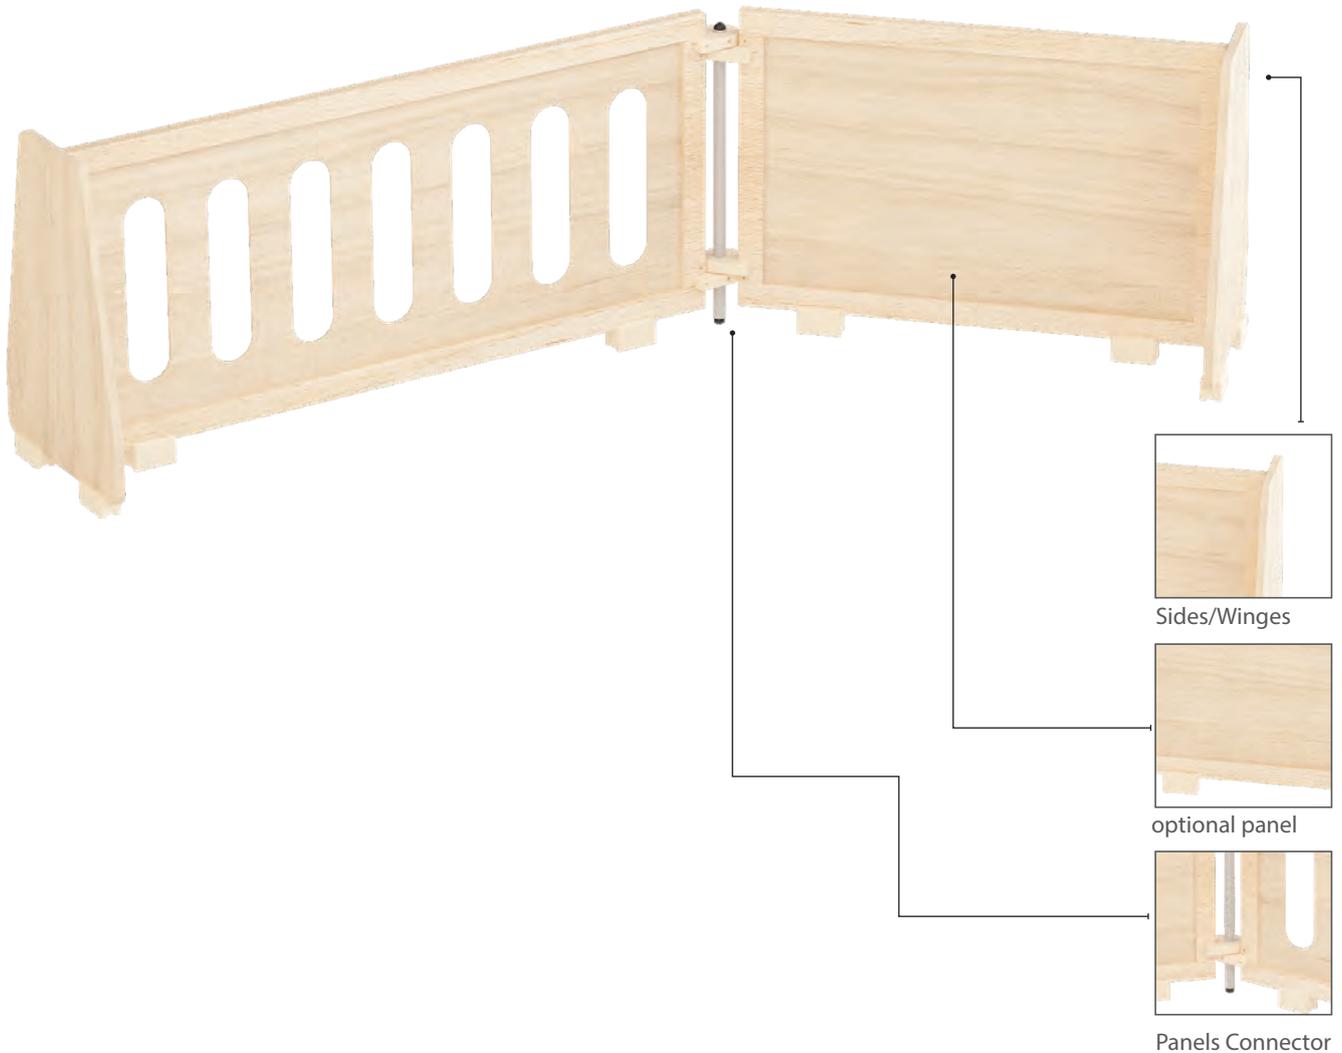

Our high-quality, durable, and functional modular room dividers made of beechwood are ideal for dividing large rooms into separate play areas. They are perfect for organizing classroom spaces and creating a variety of spaces for activities such as playing, reading, drawing, etc. Children can also have fun writing on the whiteboard or coloring on the transparent surface. The frame is made of high-quality beechwood.

Room Dividers Units

Classroom spaces should be flexible and can be created with modular panels and shelving units to divide rooms, define spaces, and establish boundaries. The panels can serve more than just as dividers. Transparent panels provide a connection with children while they play. You can add visual motivation or display artwork by attaching mirrors, clear covers, or cork covers to the panels.

Toddler

The toddler years are a time of significant cognitive, emotional, and social development. Toddlers aged 1 to 4 years need furniture that supports their physical development. We offer a variety of chairs and tables to meet your needs in this section.

Chairs

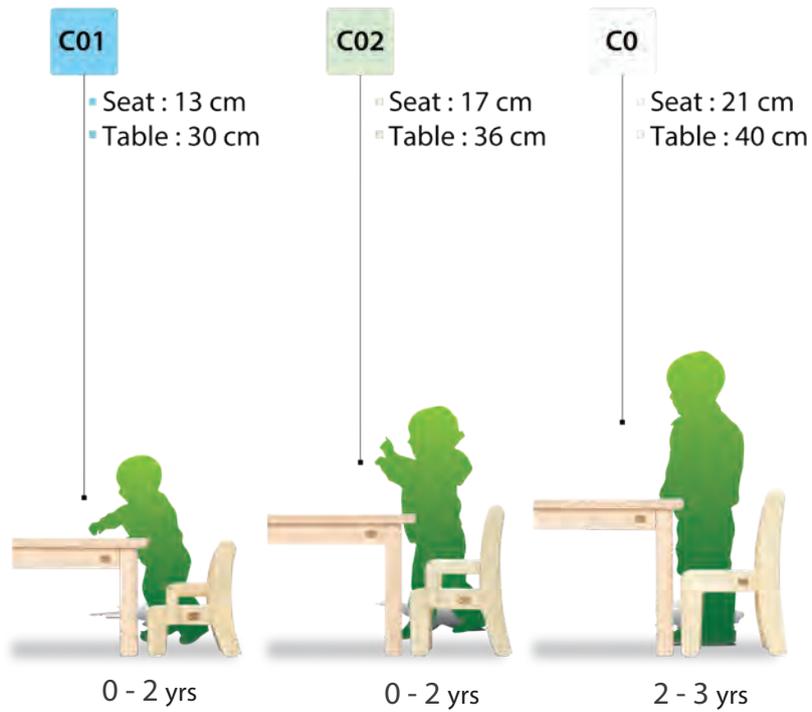

Tables

Size Chart

We design our furniture collection according to the European standards for “Chairs and Tables for Educational Institutions,” which were approved in January 2007. Children should always use the appropriate size of chairs and tables to maintain good posture and avoid any potential problems or distortions during growth. Adjustable furniture is necessary to accommodate different body heights and provide ergonomic seating.

BS EN 1729 European standards for chairs and tables

Elegance Toddler Chair

This beautifully crafted armed chair would be a great addition to any nursery or daycare center. It is specially made in smaller sizes to provide comfort and support to little ones. The chair is constructed from solid, top-quality lacquered beechwood and is built to last.

Available Colours _____

- Natural plywood

Captain Toddler Chair

This classic-style seating is made from high-quality solid beechwood. It features a recessed wooden seat base and a wrap-around seat back that provides back and side support for children. It is suitable for growing toddlers who are becoming more independent while still providing security. The chair is robustly constructed for heavy usage and has a durable natural polished varnish finish.

Stool Stackable up to 4

Sit-Me-Up Floor Seat

With our soft and sturdy support seat, little ones can practice sitting up and building muscle control. The inviting U-shaped design has a wide, sturdy base and a firm, comfortable surface for resting. The seat is made of easy-to-clean artificial leather and is designed to last.

61 x 46 x 15 cm - 43912

Flip around Chair

This infant to toddler-sized chair is perfect for small children. It is lightweight and can be repositioned by the children themselves. The seat height is adjustable when the chair is turned over, or it can be used as a small independent desk. Oval holes on its sides make it easy to handle. The chair is made of laminated plywood, and benches and tables are also available.

Elegance Tables

These flexible, movable, and creative tables feature contemporary design, functionality, and encourage social behavior, creativity, and cooperation among students. They come in a variety of unique shapes and sizes, each with its own advantages and benefits depending on the learning environment. The tables can be combined with each other or with other tables, creating a multitude of layouts with an attractive appearance. They are made of medium-density fiberboard (MDF) covered with high-pressure laminate (HPL) and have PVC edge banding. The legs are either fixed or adjustable to accommodate different heights, which is ideal for mixed age groups.

Kinder Tables

Robust solid tables designed to last for generations. Kinder Tables are packed flat for your convenience and can be easily assembled with the included instructions. The tables come in 3 convenient heights and 4 functional shapes, with legs and rails made of solid wood. Ideal for young children from 1 to 3 years old. All tables can be produced in three tabletop options:

- Tabletop 22mm made from extremely strong MDF (medium density fiberboard) laminated with HPL (high pressure laminate). Edges are made from solid beechwood with a protective varnish and are smoothly rounded to avoid any injury risks.
- Tabletop 22mm made from extremely strong MDF (medium density fiberboard) laminated with HPL (high pressure laminate). Edges have a protective varnish and are smoothly rounded to avoid any injury risks.
- Tabletop 22mm thickness made from solid beechwood (KD), with traditional wooden joints and high quality European standard adhesive (NAF: no added formaldehyde). The tabletop and edges are painted with protective lacquer and varnish and have gently rounded edges for safety.

Reading Centres

Reading centers provide a space for sharing, discussion, solitude, and relaxation. The furniture and ambiance need to reflect this to create a secure learning environment. Our reading center furniture meets all of these requirements and can be configured to your preferred layout design. We offer a functional system that can grow with the needs of your organization.

Double Sided Display Book Units

These units are double-sided, which means you can display books on both sides. There are two design options to choose from, with or without drawers. The units are suitable for storing books and magazines and come fully assembled.

Drama Centres

Imagination, going shopping, having a tea party for a favorite toy - these are some of the best activities for children. Some children have interpersonal intelligence, meaning they are sensitive to others' moods, feelings, temperaments, and motivations, and have the ability to cooperate in order to work as a part of a group. This section enhances interpersonal intelligence for children who need to break down walls of shyness and helps those who already have it to excel, as they role-play different characters.

Children Play Kitchen

Our natural-looking kitchen set will make your home corner the most attractive in town! We have combined play value with the highest quality, durability, and value for money in this kitchen set. There are three units in this set (cooker/oven, sink/washing machine, and fridge). All units are constructed from quality lacquered beechwood, which has a tough protective finish, and are designed to withstand even the most boisterous environment.
