Furniture for
Early Learning Spaces

N a t u r a l L i n e

EduFun® welcomes you to our Kindergarten Spaces Catalog. Here you will find complete solutions for pre-school and kindergarten learning spaces. Spaces where children can play, explore, discover and grow happily.

EduFun® provides a full range of products: chairs, tables, storage units, reading corners, play corners, role-play furniture, and even a puppet theatre. The furniture in these pages is ergonomically designed for active children in their early years to encourage healthy posture. With all modular designs, the natural-look pieces transform classes into creative expressions, with infinite arrangements, and infinite possibilities. Durable designs ensure years of safe and practical furniture.

EduFun® brings the highest quality furniture with the best designs into all classrooms. You'll find all the pieces are affordable and can be purchased individually, so you can buy only what you need and add on as your institution grows.

EduFun® now has subsidiary companies in Germany, Australia, Canada, KSA, Dubai and Egypt, distributing products to more than 25 countries.

Welcome to our World

The background of our company goes back a long way, as the founders were educators with many years of experience in establishing schools. They believed in education as the best way for developing societies and people. This belief was the motivation to establish our company, and is still driving it through years and years of success.

Children are our priority

Our products are always designed with children in mind. With our experience in the educational field, we understand carefully children's needs and how classroom furniture can stimulate their development. Classrooms should be inviting, environments that make children feel good to be there.

We listen carefully

At EduFun®, we strive to serve and support our customers around the world. We always listen to our customers concerns and demands. We develop our products upon their needs. You will find our furniture is modular and able to adjust in order to be able to change the learning environment all the time.

We care about our environment

Since the first day, we chose to use wood in our production, to create a healthy warm environment for children. Wood is the most environmentally friendly raw material, which are healthy for our climate, prevent climate changes and has Zero Waste. The beauty of wood is that it engages all of our senses. It is warm, rich and affecting, and its surface has a tactile and sensuous strength. We use real wood from sustainable forestry to help protect our environment. Contributing to the preservation of the environment is almost of our responsibility.

Production

Since EduFun® first began, we have been expanding our production lines to fulfill growing demand. Likewise, the collections of the EDUFUN range have been continuously expanding to meet our customers' desires.

New state of the art machines have been added to our production lines offering quality and on-time production. We are able to develop new product ranges with the execution of OME products with our factories and our four production lines (solid wood, panel board, tube bending, wooden toys and puzzle).

- 1 Solid Wood Production Line
- 2 Panel Board Production Line
- 3 Tube Bending Production Line
- 4 Educational Resources Production Line

Materials

EduFun® aims to build sustainable long-lasting furniture for the most active and ruthless children. Besides smart designs, durability depends on using the highest quality materials. To that end, Edu fun imports high quality natural European Beech wood and the longest lasting non-toxic German paints safety lacquers. We spare no expense to make certain you're getting the best products made of the highest quality materials.

Design

EduFun® designs furniture for preschool and kindergarten children, for educators, for learning institutions, to make everyone at your school safe, happy and comfortable from the start of the day till the last moment of the day.

EduFun® designs are synonymous with creative, versatile, and practical learning spaces. Our Research and Development Department has collaborated with experts from all-over the world to research, develop and create innovative products.

Ergonomically designed furniture for growing children. Storage units of all kinds for organized and efficient classrooms. Reading, play corners and role play furniture for a complete and holistic learning experience. The finest materials, vibrant colors and exquisite textures come together for relentless beauty. Durability for furniture that looks new for years to come. EduFun® designed for you all that you dream of in your preschool and kindergarten learning spaces.

Dreams can come true

We have a very wide range of products that can provide any customer with what they need. Our products vary from chairs, tables, storage units, room dividers, platforms and role play furniture. However, sometimes special specifications are requested. With our production capabilities, we can make your dreams come true.

Standards

EduFun® meets the latest high international standards of safety for our whole product range. Compliant with international standards, even the strict European CE standards, our products are safe for preschool and kindergarten children. We worry about your children's safety, so you do not have to. All of our products and production facilities are certified with the following international and European standards:

- EN 71
- ISO 9001
- ISO 14001
- OHSAS 18001

EN 71

ISO 9001

OHSAS 18001

Central Location

Edu fun® group is streamlining its activities to keep pace with the growing markets and is becoming a leader in the region and as an international player. As a place to do business, and as a hub for the region and beyond, the United Arab Emirates (UAE) continues to be increasingly important, relevant and attractive to businesses from around the world. For these reasons, we have moved our head office to UAE. EduFun® produces and ships from Egypt, the historic hub of trade and shipments. With its northern ports on the Mediterranean Sea to serve Europe and the Americas and eastern ports on the Red Sea to serve Africa, Asia and Australia is centrally located, meaning you get your order in record time.

Come Visit Us

We love getting visitors. Come to Egypt to see our facilities and see the Pyramids and Coral Reefs while you are here, or vice versa. Either way stop by and say hi. Coming with a large group? Schedule a tour of the manufacturing facilities. Come see where dreams are transformed into reality. Prefer to play and shop than see manufacturing sites? Come to Dubai and visit us in our largest worldwide showroom. More of a playground than a showroom, let your imagination run wild, then run wild after it. Arrange and rearrange as much as you like. Try out every chair and table. Let the child in you have fun designing your own learning space.

Trade agreements

Egypt is a signatory to several multilateral trade agreements, which give a great potential to its export products. Egypt's Membership in Multilateral Trade Agreements includes Agadir, the Common Market for Eastern and Southern Africa (COMESA), the Euro-Med Partnership and the Greater Arab Free Trade Area (GAFTA).

Euro.1

Euro.1 also known as a movement certificate enables importers in certain countries to import goods at a reduced or nil rate of import duty under trade agreements between the EU and beneficiary countries. Signed in 2001 it allows products to be shipped from Egypt to

Chairs & Tables

We design all of our furniture collection according to the European standards for 'chairs and tables for educational institutions' which was approved in January 2007. Children should always use the appropriate size of chairs or table to ensure good posture and prevent causing problems or distortions for them while growing. Ergonomic seating requires adjustable furniture to suits different body heights.

In this table you can choose the correct seat and table height suitable for the student age:

Children`s ages	0 - 2		2 - 3	2 - 4	4 - 6	6 - 8	8 - 11

These flexible movable creative tables combine contemporary looks, functionality as well as flexibility and encourage social behaviour, creativity and cooperation among students. It comes in a variety of unique shapes and sizes. Each shape and size has its merits and benefits, depending on the learning situation. Tables can be combined with each other or with other tables combining a multitude of layouts creating an attractive look. Tables are made of Medium-density fiberboard (MDF) covered by high-pressure laminate (HPL). Legs are either fixed or adjustable to offer different heights, an advantage for mixed age groups.

Multi Tables

These tables are the most versatile furnishings that are important for enhancing the learning environment for students. Tables come in a variety of unique shapes and sizes making them an ideal solution for student collaboration and interaction in today's multi-zone learning environments. This height adjustable table features a high-pressure laminate surface for long lasting use. It is made of Medium-density fiberboard (MDF) covered by high-pressure laminate (HPL). The tables' legs are either fixed or adjustable to offer different heights, which can be an advantage for mixed age groups.

Elegance Tables

Our lines of Elegance Tables come packed- flat for your convenience. The tables are easily assembled with the simple instructions provided. When correctly assembled, our tables are solid, stable and durable. Tables come in 3 convenient heights and 6 functional shapes. All our tables are modular and can be arranged in many different configurations. Legs and rails are made of either:

- Solid wood.

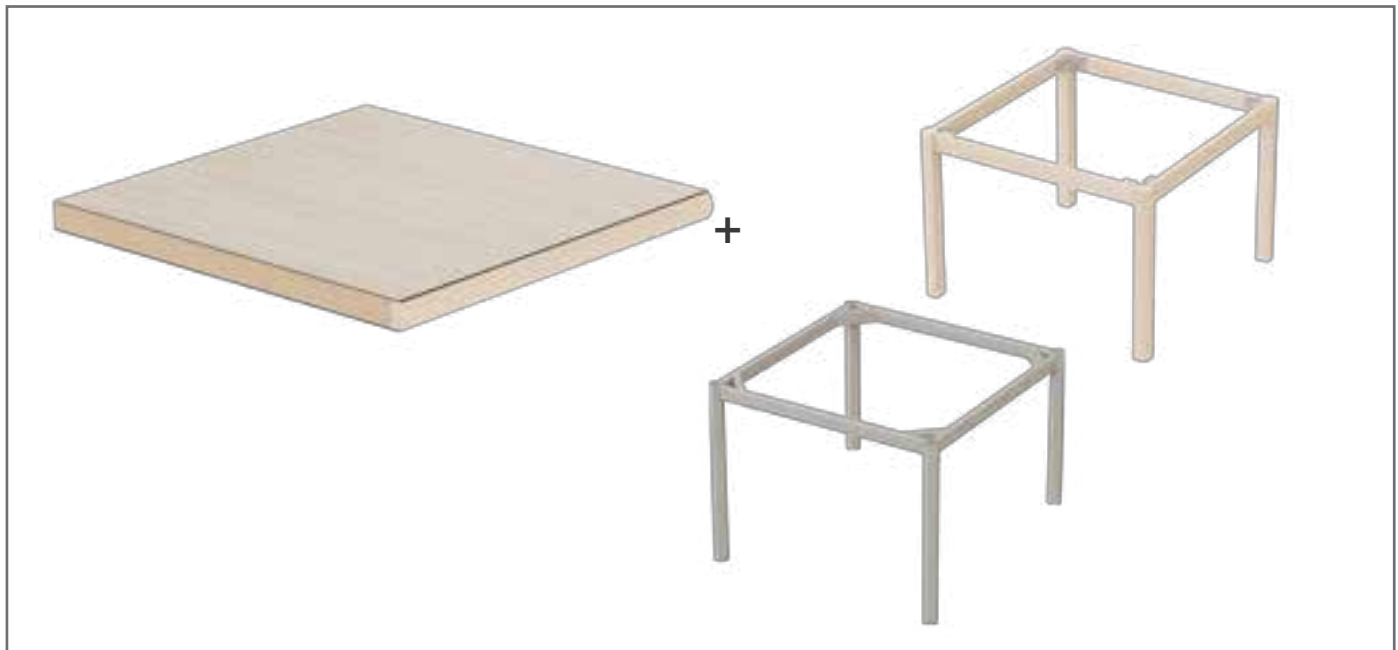

- Metal.

Plastic glides or coasters can be added upon your request.

All tables can be produced in two options of Table-tops as follows:

- Table top 22 mm made from extremely strong medium density fiberboard (MDF) laminated with high pressure laminate (HPL) . Edges made from solid beech wood with protective varnish .they are gently smoothed and lightly rounded to avoid any risk or injury.

- Table top 22 mm made from extremely strong medium density fiberboard (MDF) laminated with high pressure laminate (HPL) . Edges with protective varnish .they are gently smoothed and lightly rounded to avoid any risk or injury.

Chairs

Tables

Little children are not always taken into consideration when it comes to educational furniture. That is why we designed special sizes for them. Toddlers should always use the appropriate size of chairs or table to ensure good posture and prevent causing problems or distortions for them while growing. Ergonomic seating requires adjustable furniture to suits different body heights.

Storage Units

Flexo Storage Units

Our perfectly flexible storage units offer a variety of options and arrangements. All units are 40 cm deep to link them together and create a multitude of layouts with different heights. They are designed empty to complete with storage plastic trays (with anti-fall safety runners). The shelves are extremely resistant and designed to support the weight of heavy books and objects. Made of Medium-density fiberboard (MDF) and melamine coated on both sides and doors, with PVC edge banding. Available in single, double, triple and quadruple units they can be assembled upon request.

Ultra Storage Units

This collection was designed to fulfil the storage needs of any learning environment. These tray storage units are flexible and versatile. The wonderful natural look gives these storage units a neutral look matching many different layouts. You can choose from these four options for the back of each storage unit:

- Open shelving
- Wooden back.
- Transparent back.
- White board back.

Heavy-duty lockable casters

Wooden back is a good choice for using storage units placed on the wall. It gives you plenty of space to keep things organized in a safe way.

Open shelving give an easy overview and easy reach. It also enables you to use the unit as a divider to create different layouts.

Transparent back allows light to pass through providing a naturally shining in the room. You can also use the unit as a divider so the light can go through from all sides.

White board back is a clever use for the storage units. It also enables you to use the unit as a divider, and give children the opportunity to use it for unlimited imagination.

Mini Hollow Blocks
Basic Block Module : 7 cm

Age 3+ **Pcs** 24 Pieces

Large Building Blocks/Wooden

Perfect toy to allow your children to be creative and stimulate their imagination. Building towers and other structure develops their motor skills which helps develop bodily/kinesthetic intelligence. It also enhances logical / mathematical intelligence by developing the children's constructive and perceptive skills. Playing with blocks reinforces the interpersonal intelligence as children are encouraged to play together. Made of high quality natural wood with non-toxic paints conforming to European toy safety standards

Large Building Blocks-Wooden
Basic Block Module : 3.5 cm

Age 2½+ Pcs 50 Pieces

Basic Building Blocks/Wooden

Blocks are the epitome of open-ended toys. They allow children to design, invent and create. Our basic building blocks set make the perfect first blocks. Children can explore concepts of balance, stability as they construct enhancing logical / mathematical intelligence. Blocks are proportional in size, which allows for symmetrical design and construction. Playing with blocks reinforces the interpersonal intelligence as children are encouraged to play together. Patterns are added to the colored set to stimulate matching and comparing skills. Made of high quality natural wood with non-toxic paints conforming to European toy safety standards.

Age 2½+ Pcs 25 Pieces

Mini Building Blocks-Wooden

Our Mini building blocks encourage creative play and healthy social interaction reinforcing the interpersonal intelligence. Toddlers will love to play with them because they are velvet-smooth and all edges are evenly curved. All the shapes are simple geometric shapes, large enough so that there is no danger if they by accident end up in your child's mouth. Patterns are added to the colored set to stimulate matching and comparing skills developing logical / mathematical intelligence. Made of high quality natural wood with non-toxic paints conforming to European toy safety standards.
