Welcome to our World

The background of our company goes back a long way, as the founders were educators with many years of experience in establishing schools. They believed in education as the best way for developing societies and people. This belief was the motivation to establish our company, and is still driving it through years and years of success.

Children are our priority

EduFun® products are always designed with children in mind. With our experience in the educational field, we understand carefully children's needs and how classroom furniture can stimulate their development. Classrooms should be inviting, environments that make children feel good to be there.

We listen carefully

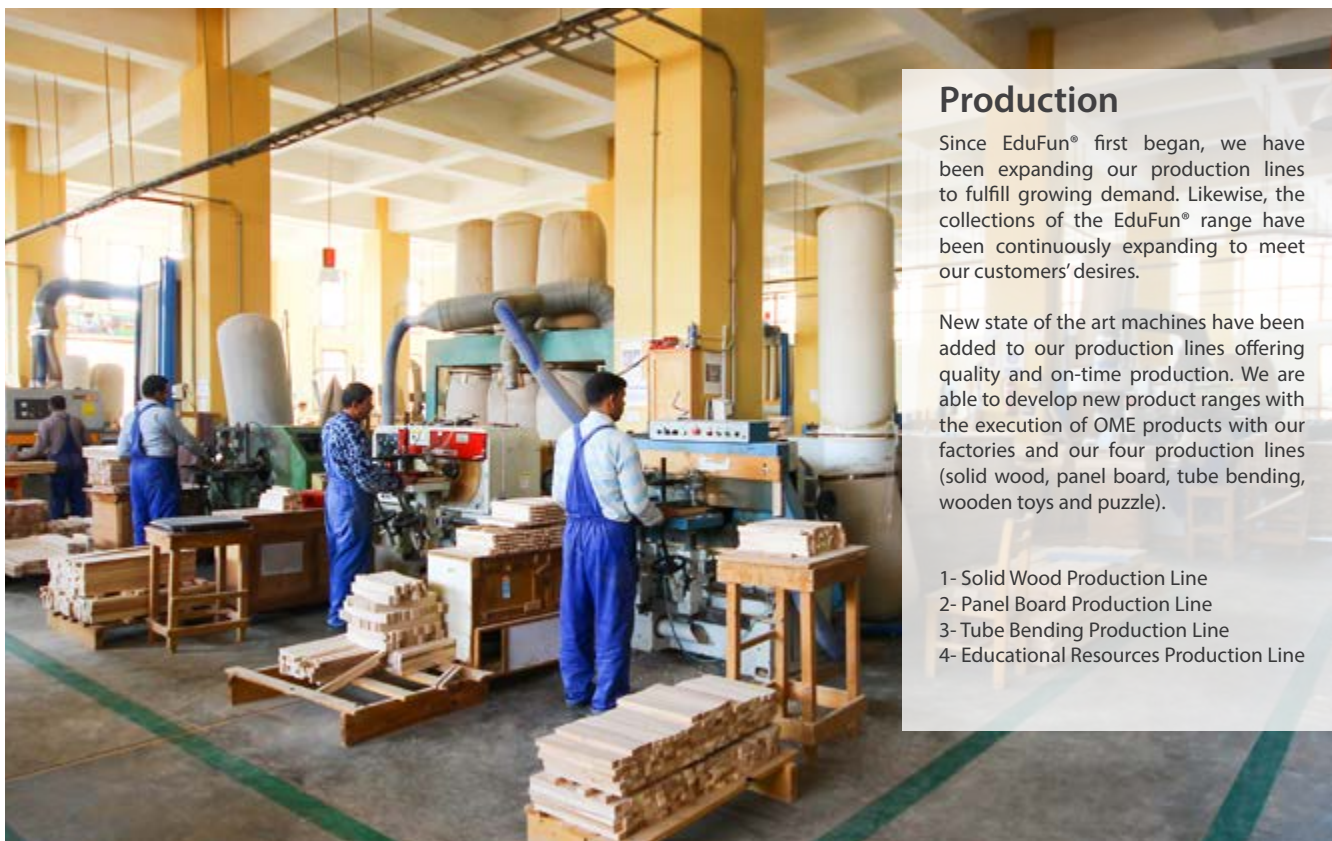

At EduFun®, we strive to serve and support our customers around the world. We always listen to our customers concerns and demands. We develop our products upon their needs. You will find our furniture is modular and able to adjust in order to be able to change the learning environment all the time.

We care about our environment

Since the first day, we chose to use wood in our production, to create a healthy warm environment for children. Wood is the most environmentally friendly raw material, which are healthy for our climate, prevent climate changes and has Zero Waste. The beauty of wood is that it engages all of our senses. It is warm, rich and affecting, and its surface has a tactile and sensuous strength. We use real wood from sustainable forestry to help protect our environment. Contributing to the preservation of the environment is almost of our responsibility.

Production

Since EduFun® first began, we have been expanding our production lines to fulfill growing demand. Likewise, the collections of the EduFun® range have been continuously expanding to meet our customers' desires.

New state of the art machines have been added to our production lines offering quality and on-time production. We are able to develop new product ranges with the execution of OME products with our factories and our four production lines (solid wood, panel board, tube bending, wooden toys and puzzle).

- 1- Solid Wood Production Line
- 2- Panel Board Production Line
- 3- Tube Bending Production Line
- 4- Educational Resources Production Line

Materials

EduFun® aims to build sustainable long-lasting furniture for the most active and ruthless children. Besides smart designs, durability depends on using the highest quality materials. To that end, EduFun® imports high quality natural European Beechwood and the longest lasting non-toxic German paints safety lacquers. We spare no expense to make certain you're getting the best products made of the highest quality materials.

Introduction

Design

EduFun® designs furniture for preschool and kindergarten children, for educators, for learning institutions, to make everyone at your school safe, happy and comfortable from the start of the day till the last moment of the day.

EduFun® designs are synonymous with creative, versatile, and practical learning spaces. Our Research and Development Department has collaborated with experts from all-over the world to research, develop and create innovative products.

Ergonomically designed furniture for growing children. Storage units of all kinds for organized and efficient classrooms. Reading Centres, play corners and role play furniture for a complete and holistic learning experience. The finest materials, vibrant Colours and exquisite textures come together for relentless beauty. Durability for furniture that looks new for years to come. EduFun® designed for you all that you dream of in your preschool and kindergarten learning spaces.

The colours, design & specifications in this catalogue may not corresponded to the actual ones. Edu fun reserves the right to change any specifications and make upgrades of its products at any time without notice. Information in this catalogue was correct at the time of printing. While our team has made every effort to ensure the accuracy of information, Edu fun cannot accept any responsibility for any errors or omissions and this catalogue does not oblige of any form of contract.

Dreams can come true

We have a very wide range of products that can provide any customer with what they need. Our products vary from chairs, tables, storage units, platforms and role play furniture. However, sometimes special specifications are requested. With our production capabilities, we can make your dreams come true.

International Standards

EduFun® is keen on our childrens' health and for that reason the product range and production facilities are certified by meeting the latest high international standards of safety such as:

- BS EN 1729
- ANSI/BIFMA
- ISO 9001
- ISO 14001
- OHSAS 18001

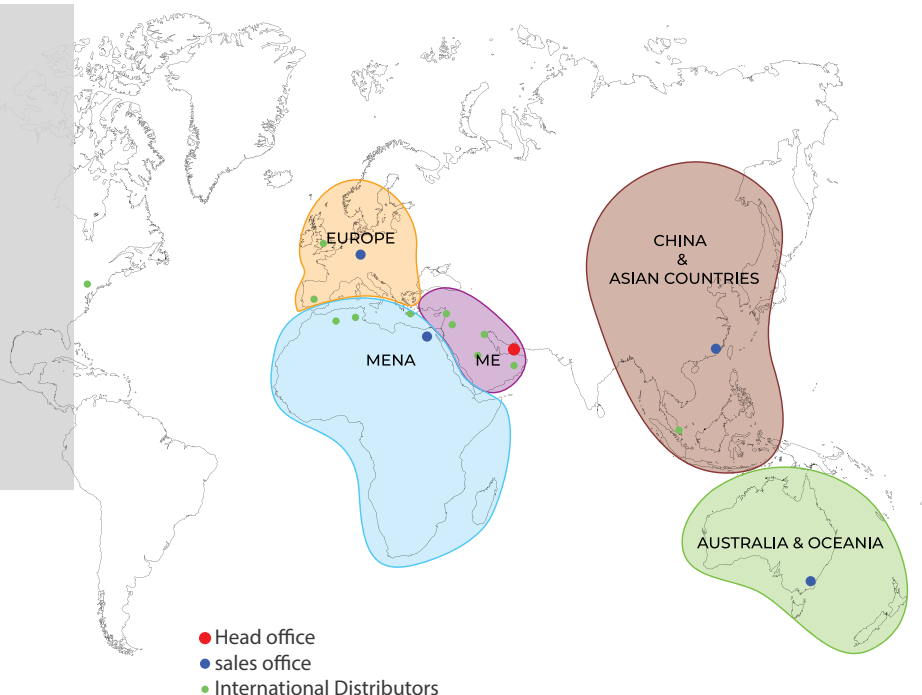

BS EN 1729

Central Locations

Edu fun® group is streamlining its activities to keep pace with the growing markets and is becoming a leader in the region and as an international player. As a place to do business, and as a hub for the region and beyond, the United Arab Emirates (UAE) continues to be increasingly important, relevant and attractive to businesses from around the world. For these reasons, we have moved our head office to UAE. EduFun® produces and ships from Egypt, the historic hub of trade and shipments. With its northern ports on the Mediterranean Sea to serve Europe and the Americas and eastern ports on the Red Sea to serve Africa, Asia and Australia is centrally located, meaning you get your order in record time.

Visit Us

Our customers are warmly invited to visit our factory in Egypt or any of our subsidiaries in Germany, Australia or China. We are pretty sure that visiting our integrated manufacturing complex will leave a positive impression on you.

We are not just a manufacturer but we are artists as well. You can feel yourself that when you meet in person with our skilled workers under a supervision of well-educated professional engineers and how they are working with the latest technological machinery and how they turn a piece of tree into a piece of art.

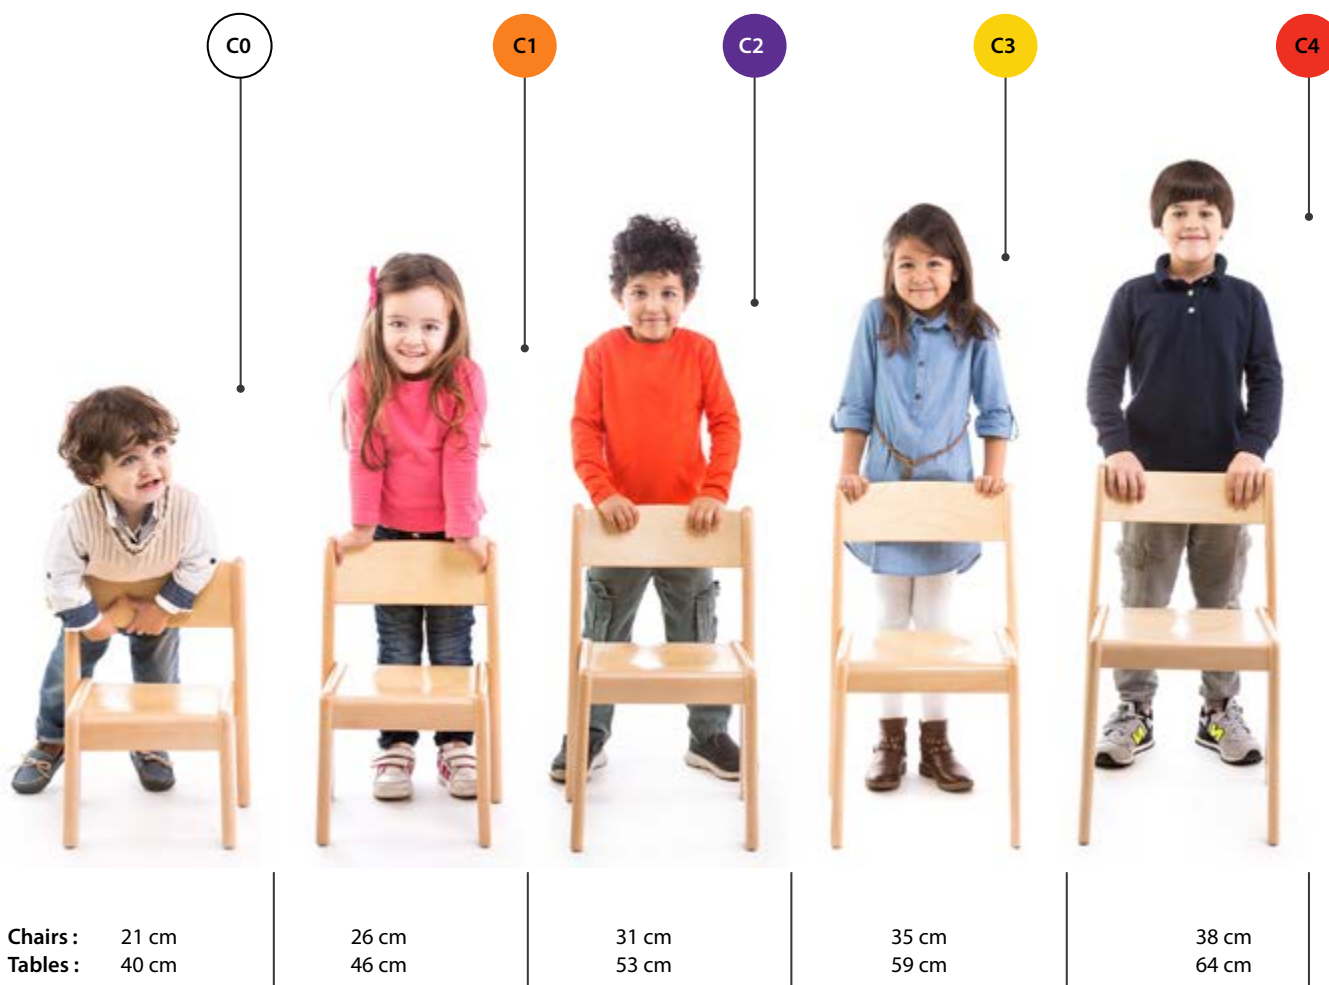

What benefits can you get from buying from us?

Zero Customs duty is one of the most advantages that you can get if you import directly from Egypt and that's why we have established our factory in Egypt from the early beginning as Egypt is a signatory to several multilateral trade agreements, which give a great potential to its export products. The following are the "Trade Agreements" which between Egypt as country of Export and the whole world :

- Egypt - EU Partnership
- Mercosur Agreement
- COMESA Agreement
- EFTA Agreement
- Egypt – Turkey Free Trade Agreement
- Agadir Agreement
- League of Arab States
- Generalized system of preferences (G.S.P)
- Generalized System of Trade Preferences (G.S.T.P)

European standards

We design all of our furniture collection according to the European standards for chairs and tables for educational institutions which was approved in January 2007. Children should always use the appropriate size of chairs or table to ensure good posture and prevent causing problems or distortions for them while growing. Ergonomic seating requires adjustable furniture to suits different body heights.

In this table you can choose the correct seat and table height suitable for the student age:

BS EN 1729 European standards for chairs and tables

Soft Play

Studies show that active play aids a child's physical, mental, social and emotional well-being as they mature. Soft play corners are the most comprehensive and safe ways for children to develop. Our collection of soft play pieces are designed to give children a safer place to play. Our collection of soft play suits little children and offers them endless hours of fun and joy.

Multi Activity Soft Play

Children will have a lot of fun with these geometric shapes. Each shape's edge invites another shape to nestle encouraging interactive play among the soft shapes. The warm natural colours helps children to relax and concentrate. Made of high-density foam covered with leather. Easy to clean with soapy water. Recommended for ages between 2 and 3 years.

Toddler

The toddler years are a time of great cognitive, emotional and social development. Toddler children from 1 to 4 years need to have their own classroom furniture that embrace their psychical development at this age. We have designed in this section a variety of chairs & tables, which will suit your needs every time.

Chairs

Tables

Size Chart

We design all of our furniture collection according to the European standards for 'chairs and tables for educational institutions' which was approved in January 2007. Children should always use the appropriate size of chairs or table to ensure good posture and prevent causing problems or distortions for them while growing. Ergonomic seating requires adjustable furniture to suits different body heights.

In this table you can choose the correct seat and table height suitable for the student age:

BS EN 1729 European standards for chairs and tables

Drama Centres

Imagination, going shopping, having a tea party for a favourite toy are some of the best activities children can have. Some children have interpersonal intelligence which means they are sensitive to others' moods, feelings, temperaments and motivations, and their ability to cooperate in order to work as part of a group. This section helps to enhance interpersonal intelligence for children who need to break down walls of shyness and help those who have it already to excel with it, as they role play different characters.

Puppet Theater

Our attractive theatre invites your child to put on a show the audience will never forget. The wooden design features a sturdy, non-tip base to protect your child and the audience, and there is plenty of room inside for a puppeteer or two.
