Crafting Excellence

Edu Fun's 25-Year Journey in Premium Pre-School Furniture
Welcome to the world of Edu Fun, where years of unwavering dedication and innovation have introduced quality products that helped shape better early learning environments. Our commitment to excellence drives us.

Born in 1996 in Nuremberg, Germany, Edu Fun set out with a mission to create thoughtfully designed, functional, and safe furniture for young learners. Rooted in European design standards and premium materials, our influence has expanded globally, incorporating unmatched craftsmanship into our overseas production.

Edu Fun has evolved into a globally recognized group of companies, operating from multiple locations and specializing in designing, producing, and exporting pre-school educational furniture and early learning resources

What Makes Edu Fun Stand Out for Your Early Learning Environment Needs:

- **Premium European Natural Materials:**
Safety and durability are paramount. We use natural wood from Top-Quality European forests, meeting stringent safety standards and complying with European standards.
- **European Design Excellence:**
Inspired by European aesthetics, our pieces harmonize elegance, simplicity, and functionality to foster an inspiring learning environment, adhering to European design standards.
- **Comprehensive Age Range:**
Our products support diverse age groups, aiding every stage of early childhood development while conforming to European safety standards.
- **Flexible Furniture Solutions:**
Our furniture seamlessly adapts to various spaces, room sizes, and age groups, offering unparalleled flexibility while complying with European safety and quality norms.
- **Tailored Solutions:**
Customization options are available to precisely align with your specific needs, transforming educational spaces according to your vision while meeting European safety standards.
- **Expertise Designers and Craftsmen from Europe:**
Our International Expertise Designers and Craftsmen bring European expertise and traditions to our manufacturing process, ensuring compliance with European standards throughout the production cycle.
- **Affordable Overseas Production:**
Through a strategic partnership with an established overseas school furniture factory, we maintain competitive pricing without compromising quality, adhering to European safety and quality regulations.
- **Multi-Regional Distribution Centres**
Edu Fun's product ranges are easily accessible through regional distribution centres and exclusive agents. The four main distribution centres, equipped with available stock, experienced sales teams, showrooms, and comprehensive after-sales services, are strategically located. Authorized agents in key markets further enhance the sales experience. Contact Edu Fun for the nearest distribution centres or authorized agents.

With over 25 years of experience, Edu Fun has earned trust as a reliable supplier of thousands of products in numerous international markets. Explore our extensive catalogue, connect with our team, and join us in crafting secure, captivating, and inspiring educational environments for young learners.

Thank you for considering Edu Fun. We eagerly await the opportunity to assist you in creating enhanced learning spaces.

Introduction

From the Forest into the Classroom

At EduFun®, we are proud to offer our customers the best products made of the highest quality materials. We exclusively use high-quality natural wood sourced from European forests, primarily solid beech wood and birch plywood, to create our furniture and learning resources. We oversee our wood sourcing and control the process from log preparation, wood treatment and kiln drying, ensuring a comprehensive approach to quality. We believe our commitment to quality and attention to detail differentiates us from our competitors. This enables us to provide competitive prices by managing the entire production process.

Manufacturing

EduFun® has always been a designer and manufacturer of its diverse product range. We maintain complete control over our productions from the design stage to shipping. With Edu Fun's five production lines, we offer a wide range of products for early learning environments.

We have continually expanded our production lines to meet growing demand, concurrently expanding the collections within the EduFun® range to satisfy customer preferences. New state-of-the-art machines have been integrated into our production lines, ensuring quality and timely production.

EduFun® 5 Production Lines:

1. Solid Wood Production Line
2. Panel Board Production Line
3. Tube Bending Production Line
4. Upholstery Production Line
5. Learning Resources, Wooden Toys, and Puzzles Production Line.

With these production lines, EduFun® is able to provide a vast product range that caters to the trends and needs of early learning environments. Additionally, EduFun® offers OEM products tailored to our customers' designs and preferences.

Introduction

International Standards

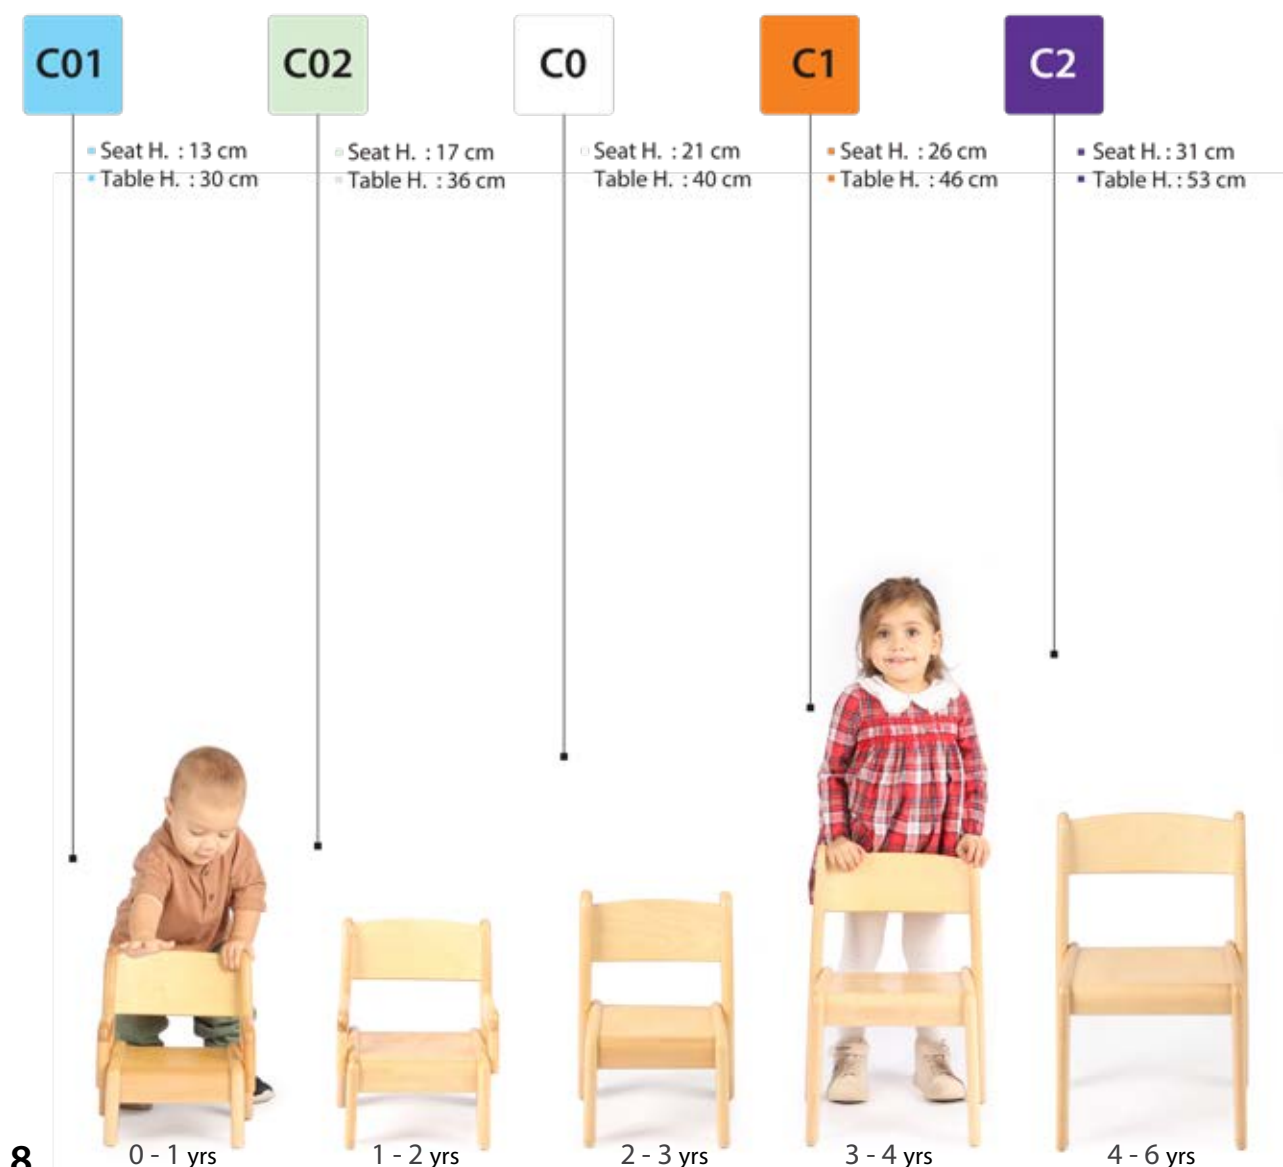

Products Standards

Our furniture collections comply with European standards for chairs and tables in educational institutions EN 1729. Edu Fun chairs and tables are made to accommodate different body heights, ensuring they are ergonomically designed for active children in their early years, promoting good posture and preventing problems or distortions as children grow. We are proud to meet the BS EN 1729 1&2 standards.

BS EN 1729 1

HARMONY Line

Natural European Beechwood

Tables:

- Tops are made from 22 mm thick MDF (Medium Density Fiberboard) and laminated with HPL (High Pressure Laminate) with high scratch and shock resistance surfaces.
- New designed solid wood edges, curved and rounded for safety, with no grooves when tables are grouped or combined.
- Varnished solid beech wood edges, curved and rounded for safety are available in wood grain and beige colors.
- Comes with a 5 year guarantee. Table frame made from varnished solid beechwood with rounded corners (according to European standards).
- Legs are fitted with glides to provide floor leveling and reduce noise. Legs come unassembled and can be easily fixed to the table tops frame using a strong metal fixing bracket.

The Classic Natural European Wood Series:

- **Ergonomically European designed series.**
- **Solid European beech wood chairs and table frames.**
- **Natural European birch plywood seat and back rest.**

Our Harmony Line is designed with natural European beechwood and features ergonomically designed chairs and tables. The classic natural European wood series is constructed with solid European beechwood frames and natural European birch plywood seat and backrest. The Harmony Line offers a wide range of products that can help create a natural and efficient learning environment. With its modular design, the natural look of our furniture can be transformed into creative expressions, offering infinite arrangements and possibilities.

Chairs:

- Frames are made from European beechwood.
- Seat and backrest are made from curved multilayered birch plywood.
- Comes assembled.
- Multi-stack chairs with a wide range of seat and backrests available in natural or colored range.
- Legs have a glide to protect floors and reduce noise.
- Strong enough to hold the weight of an adult.
- Comes with a 5 year guarantee.

Harmony Line

We suggest the Elegance Table with the Elegance Chair or Deluxe Chair as the main choice in the harmony line. Any wooden chair - from our collection - can also be used with our Elegance Table. (Page 16 to 29).

Another shapes of Elegance Tables

Harmony Line

Elegance Tables

Our Elegance Table line is shipped in a flat-pack for your convenience. Assembly is simple with the included instructions. The finished product is solid, stable, and durable. The tables come in different heights and shapes, and are modular and can be arranged in various configurations. The legs are made from solid wood. Plastic glides or coasters can be added upon request. The table tops are 22mm thick, made from MDF and laminated with HPL. The edges are made from solid beechwood with a protective varnish, smoothed and lightly rounded for safety.

- Supplied unassembled

Table tops and legs are sold separately, allowing for flexibility and efficient inventory management. Any leg height can be paired with any tabletop shape.

22mm MDF Laminated with HPL Solid Beech Edges

Tabletops that are 22mm thick are made from extremely strong medium density fiberboard (MDF) that is stiff, knot-free, and has smooth edges. The tops are laminated with high-pressure laminate (HPL) using heat (80-90 Celsius) and pressure (250 kgs/m²). No added formaldehyde (NAF). Available in beige or white or gray wood-themed colors. Edges made from solid beechwood and coated with protective varnish, featuring smooth and rounded edges for safety.

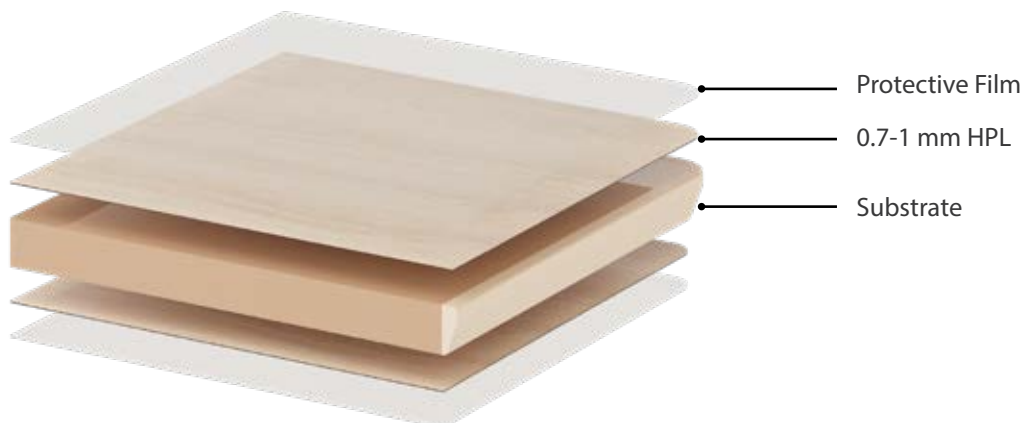

A Special rounded Edge design without spacing when tables are grouped (shark nose Edges)

Easy to clean

HPL vs. Melamine

High Pressure Laminate (HPL) is commonly referred to as HPL and is manufactured under 1,000 kg/m² of pressure, pressing down on 6 to 8 layers of kraft paper bonded with phenolic resin glue and topped by a polymer facing. It is used in applications such as bench-tops, joinery, wall paneling, lockers, and tables where scuff resistance is prominent and important.

When you purchase HPL sheets, they are generally not attached to a substrate such as MDF or craft wood. Attaching it to a timber substrate is a separate process commonly referred to as "laying up the laminate". For best results, it should be attached to a dense substrate, such as moisture-resistant Medium Density Fiberboard (MDF), and combined with ABET High-Pressure Laminates for the decorative surface. This results in the best possible finish with maximum durability.

Elegance Tables

Wooden Legs

There are 7 different heights for these wooden legs, which are convenient for children of different heights. The tables come packed flat for convenience and are easily assembled with the simple manual instructions provided.

Classroom **Fit-Outs**

We offer custom-designed room plans to fit your needs. Our team of experts will turn your vision into functional and inspiring learning spaces. Use our Harmony Line furniture pieces to create integrated kindergarten classrooms with these ideas.

PRIME Line

The Metal / Wood Series

Tables:

Tops made from:

- 22 mm thick MDF (Medium Density Fibreboard), laminated with HPL (high pressure laminate)
- Tabletops are available in wood grain and beige colour, with high scratch and shock resistant surfaces.
- Newly designed solid wood edges are curved and rounded for safety. No grooves when tables are grouped together or combined.

Table legs made from:

- Adjustable metal/ wood table legs, with newly designed construction.
- Legs are fitted with glides to protect floors; floor leveling and reduce noise.
- Legs come separate and can fit to any tabletop size and design. They are easy and quick to assemble and fix using metal threaded insert and screws.
- Table tops legs are adjustable up to 5 heights.
- 5 years guarantee.

Prime line is the ideal choice for encouraging creativity and cooperation among children. The construction and materials used ensures that they will remain durable in their everyday use. It gives you the flexibility to create many classroom outfits that satisfy all tastes. It is ergonomically designed for active children in their early years to gently encourage healthy posture. The modular designs offer infinite arrangements, and infinite possibilities. Multi adjustable metal/wooden tables & chairs. Chairs with natural birch plywood seat and back rest. Frames made of rigged metal tubes.

Chairs:

- Frames made from rigged metal tubes with strong scratch-resistant epoxy paints.
- Seat and backrest made from ergonomically curved multi-layered birch plywood.
- Special leg design provides stability.
- Metal frames are fitted with glides to protect floors and reduce noise.
- Multi stack chairs.
- Comes assembled.
- Very strong and can hold the weight of an adult.
- 5 years guarantee.

Prime Line

We suggest the Flexo Table with Simple Chair as the main choice in the Grand line. Any wooden chair with metal frame - from our collection - can also be used with our Flexo Table.

Another shapes of Elegance Tables

Flexo Tables

These flexible movable creative tables combine contemporary look, functionality, as well as flexibility that encourages social behaviour, creativity and cooperation among students. It comes in a variety of unique shapes and sizes. Each shape and size have its merits and benefits, depending on the learning situation. Tables can be combined with each other or with other tables, combining a multitude of layouts creating an attractive look. Tables are made of Medium-density fibreboard (MDF) covered by high-pressure laminate (HPL). Legs are either fixed or adjustable to offer different heights, an advantage for mixed- age groups.

Easy to clean

As everyone has his/her own choices, we have enabled you to choose your table just as you like! Choose the table- top material and then decide if you want a fixed or adjustable leg. Also you can decide if you want coasters (in two legs) or glides.

=

28mm MDF Laminated HPL solid beech edges

Tabletops 28mm thickness are made from extremely strong medium density fibreboard (MDF) insulation, which is stiff, has no knots and has fine edges. The tops are also laminated with high pressure lamination HPL (under heat [80-90 Celsius] and pressure [250 kgs/m²]). No added formaldehyde (NAF). Ivory colour or beige wood theme. Edges made from solid beechwood painted with protective varnish, with safe and gently and rounded edges. A special rounded edge design without spacing when tables are grouped (shark nose edges).

A Special rounded Edge design without spacing when tables are grouped (shark nose Edges)

Wood/Metal legs

These legs can be adjusted according to children different heights. Metal adjustable leg can be used from (C0 – C4) stage. It is ideal for mixed age classrooms.

Stool

A high-quality stool made of solid beechwood frame and plywood seat. The legs have double dowel connections for maximum stability. The curved design eliminates corners where little ones can get caught. Easy to assemble for storage, with neutral tones that match many of our tables. Plastic glides prevent marks or divots on the floor, even after years of use.

TODDLER

The toddler years are a time of significant cognitive, emotional, and social development. Toddlers aged 0 to 3 years need furniture that supports their physical development. We offer a variety of chairs and tables to meet your needs in this section.

Tables

Chairs

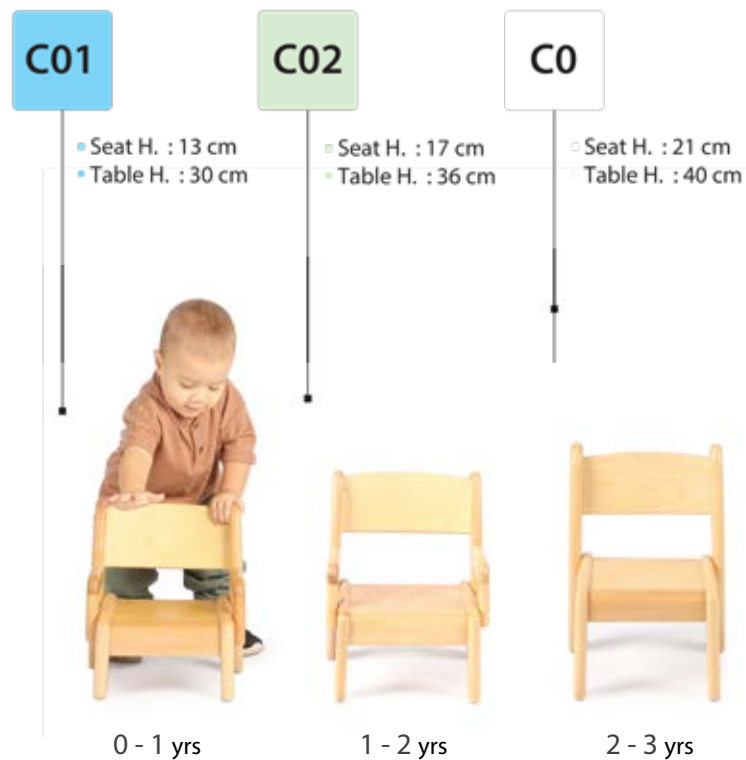

Soft Seating

Size Chart

We design our furniture collection according to the European standards for "Chairs and Tables for Educational Institutions," which were approved in January 2007. Children should always use the appropriate size of chairs and tables to maintain good posture and avoid any potential problems or distortions during growth. Adjustable furniture is necessary to accommodate different body heights and provide ergonomic seating.

BS EN 1729 European standards for chairs and tables

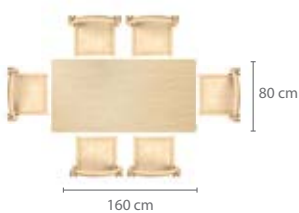

Elegance Tables

Our Elegance Table line is shipped in a flat-pack for your convenience. Assembly is simple with the included instructions. The finished product is solid, stable, and durable. The tables come in different heights and shapes, and are modular and can be arranged in various configurations. The legs are made from solid wood. Plastic glides or coasters can be added upon request. The table tops are 22mm thick, made from MDF and laminated with HPL. The edges are made from solid beechwood with a protective varnish, smoothed and lightly rounded for safety.

Deluxe Teacher - **Low** Chair

Ergonomically designed chairs built to last for generations. Each chair is constructed from solid, top-quality lacquered beech wood and plywood. Featuring a curved seat and backrest for added comfort. The 35 cm seat height is designed to allow teachers to interact with children at an ideal level whether that is for reading, drawing, feeding or other activities. Adult seat width for maximum comfort.

40 x 42 cm - H. 35 cm

43281

Simple Teacher Chair

The simple chair frame is constructed with durable metal pipes. With an adult-sized seat and backrest, this chair offers the appropriate room and support for adults to sit comfortably. The seat and backrest are made from multi-layer plywood. The chairs can be stacked up to four for space-saving purposes. The angled legs provide stability and prevent tipping. The legs are fitted with plastic glides to protect floors and reduce noise.

STORAGE UNITS

Our versatile storage systems keep preschool educational spaces functional and tidy. With modern styling, our storage is available in natural or colorful themes to match the creative educational environment and can be configured to meet your layout requirements. Our range has been designed to separate spaces for different activities and to match with our table and chair systems. Available in various sizes and colors.

Storage Units

Ultimate N Storage Units

The Ultimate Unit is made from 18mm-thick strong Medium-Density Fiberboard (MDF). It is laminated with High-Pressure Lamination (HPL) on both sides for added durability and protection. The edges and rails are made of solid beech wood with a rounded profile for improved aesthetic appeal. All edges and corners are rounded in accordance with international safety standards and coated with a protective varnish to ensure its longevity. It has four castors, two of which are lockable and two are non-lockable.

Curvy edges for more safety.

ROOM DIVIDERS

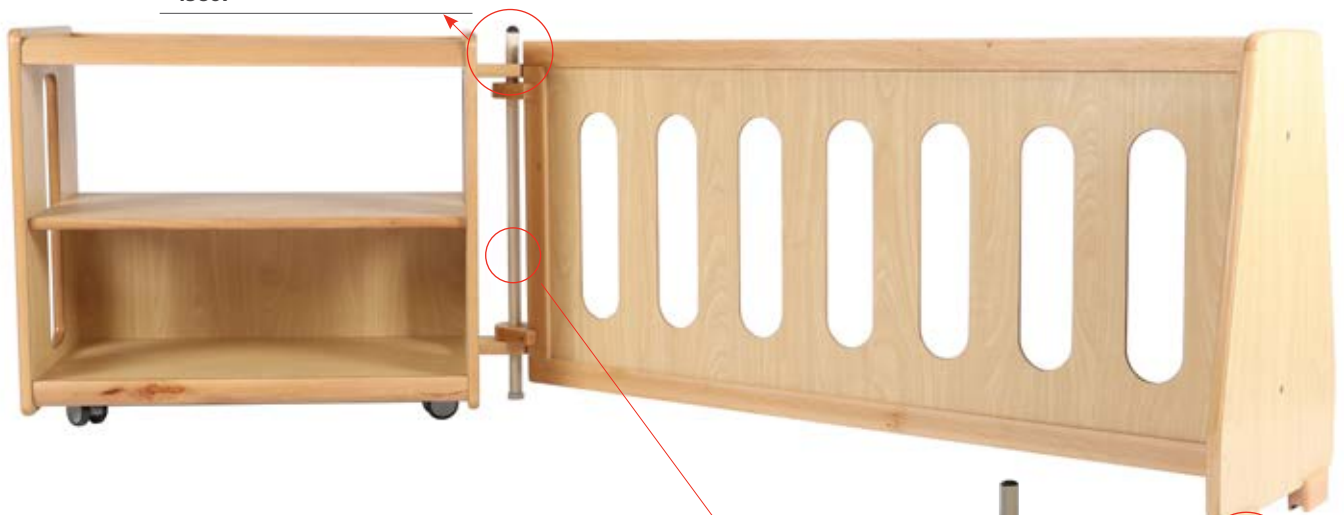

Our high-quality, durable, and functional modular room dividers made of beechwood are ideal for dividing large rooms into separate play areas. They are perfect for organizing classroom spaces and creating a variety of spaces for activities such as playing, reading, drawing, etc. Children can also have fun writing on the whiteboard or coloring on the transparent surface. The frame is made of high-quality beechwood.

Room Dividers Units

Classroom spaces should be flexible and can be created with modular panels and shelving units to divide rooms, define spaces, and establish boundaries. The panels can serve more than just as dividers. Transparent panels provide a connection with children while they play. You can add visual motivation or display artwork by attaching mirrors, clear covers, or cork covers to the panels.

Studies show that active play benefits a child's physical, mental, social, and emotional development. Soft play corners provide a safe and comprehensive way for children to develop. Our collection of soft play pieces offers children a safer place to play and provides endless hours of fun and joy.

Multi Activity Soft Play - Small

Young children will have fun with these geometric shapes. The edges of each shape invite another shape to nestle, encouraging interactive play. The warm natural colors promote relaxation and concentration. Made of high-density foam and covered in leather, they are easy to clean with soap and water. Recommended for ages 0 to 3 years.

Imagination, going shopping, having a tea party for a favorite toy - these are some of the best activities for children. Some children have interpersonal intelligence, meaning they are sensitive to others' moods, feelings, temperaments, and motivations, and have the ability to cooperate in order to work as a part of a group. This section enhances interpersonal intelligence for children who need to break down walls of shyness and helps those who already have it to excel, as they role-play different characters.

This high-quality lounge set is a stylish addition to preschool classrooms or role-playing areas. The frames are made from solid natural wood and the back and seat cushions are covered with either fabric or leather. The lounge encourages social interaction among children during play or while reading books. Its timeless design creates a warm and inviting atmosphere.
