Complete solutions
for **Kindergarten Spaces**

Complete Solutions for kindergarten Spaces

Edu fun[®] welcomes you to its catalogue, which provides a complete solution for pre-school and kindergarten education.

In our catalogue, you can find a full range of furniture, which suits the requirements of children in their early years. The environment children play and learn in, have a great effect on them. Therefore, we believe in the importance of providing practical, suitable and comfortable designs to fulfill the demands of this critical stage.

Our modular designs make it easy to set up unique configurations to suit children's needs. The colourful, attractive and durable designs encourage good posture and ensure years of safe and enjoyable use. Also for your convenience they are designed so you can buy only what you need and then add to it later.

We add all this and offer it at an affordable and compatible price. **Edu fun**[®] provides a full range of products starting with chairs, tables, storage units and reading corners. Other products include play corners and role-play furniture in addition to play screens and boards.

Edu fun[®] has been expanding lately. We have subsidiary companies in Australia, Canada, KSA, Dubai and Egypt. Our products are distributed in more than 25 countries.

We Came Closer

We at Edu fun® strive hard for better sales and export services of our products and high customer support. This year we proudly announced the opening of our European subsidiary to serve this important market.

Edu fun® GmbH Germany

For more than 25 years, Edu fun® has proudly facilitated the educational market in Europe. After many years, we decided that we should be physically located in Europe. We have chosen to start with Germany to be the headquarters for our new branches in Europe.

Germany is one of the leading countries in both Europe and worldwide in the design and development of learning resources and educational furniture. With its central location in Europe, Germany will be a unique hub to service the sales operations and customer support. Europe is our main market following the Middle East. We have a long strategic plan for the market in Europe. Edu fun® GmbH is just our first step.

Edu fun® PTY, LTD, Australia

Edu fun® products have been sold in Australia since 1995. In the beginning, the products were sold by the main learning resource distributors in Australia.

In 2015, we opened our branch, Edu fun®, PTY, LTD.

Edu fun® recognized the importance to establish itself in Australia. It has always aimed to satisfy its clients making sure each customer feels they are Edu fun® favourite client.

Edu fun® Middle East Dubai, UAE

Edu fun® group is streamlining its activities to keep pace with the growing markets and is becoming a leader in the region and as an international player.

As a place to do business, and as a hub for the region and beyond, the United Arab Emirates (UAE) continues to be increasingly important, relevant and attractive to businesses from around the world. For these reasons, Edu fun® has moved its head office to UAE. We continue to care about our market in GCC in general and in the UAE in particular due to its importance and its approximate location to our production facilities in Egypt.

With more than 40% of the population younger than 30, GCC countries are an important market for learning resources & educational furniture. They are notably growing in the fields offering great educational facilities.

Edu fun® MENA Egypt

Egypt's economic conditions have started to improve considerably, after a period of stagnation. This is a result of improved liberal economic policies by the government, increased revenues from tourism along with a booming stock market.

According to annual reports by some international organizations, Egypt has been rated and recognized as one of the top countries concerned with reforming the market standards for pre-school educational services.

Moreover it has educated the market with world standards and codes to set the Egyptian standards and codes later.

Taking advantage of its large population of 104 million and a birth growth rate of 2.3%, Egypt is the biggest market in the MENA region.

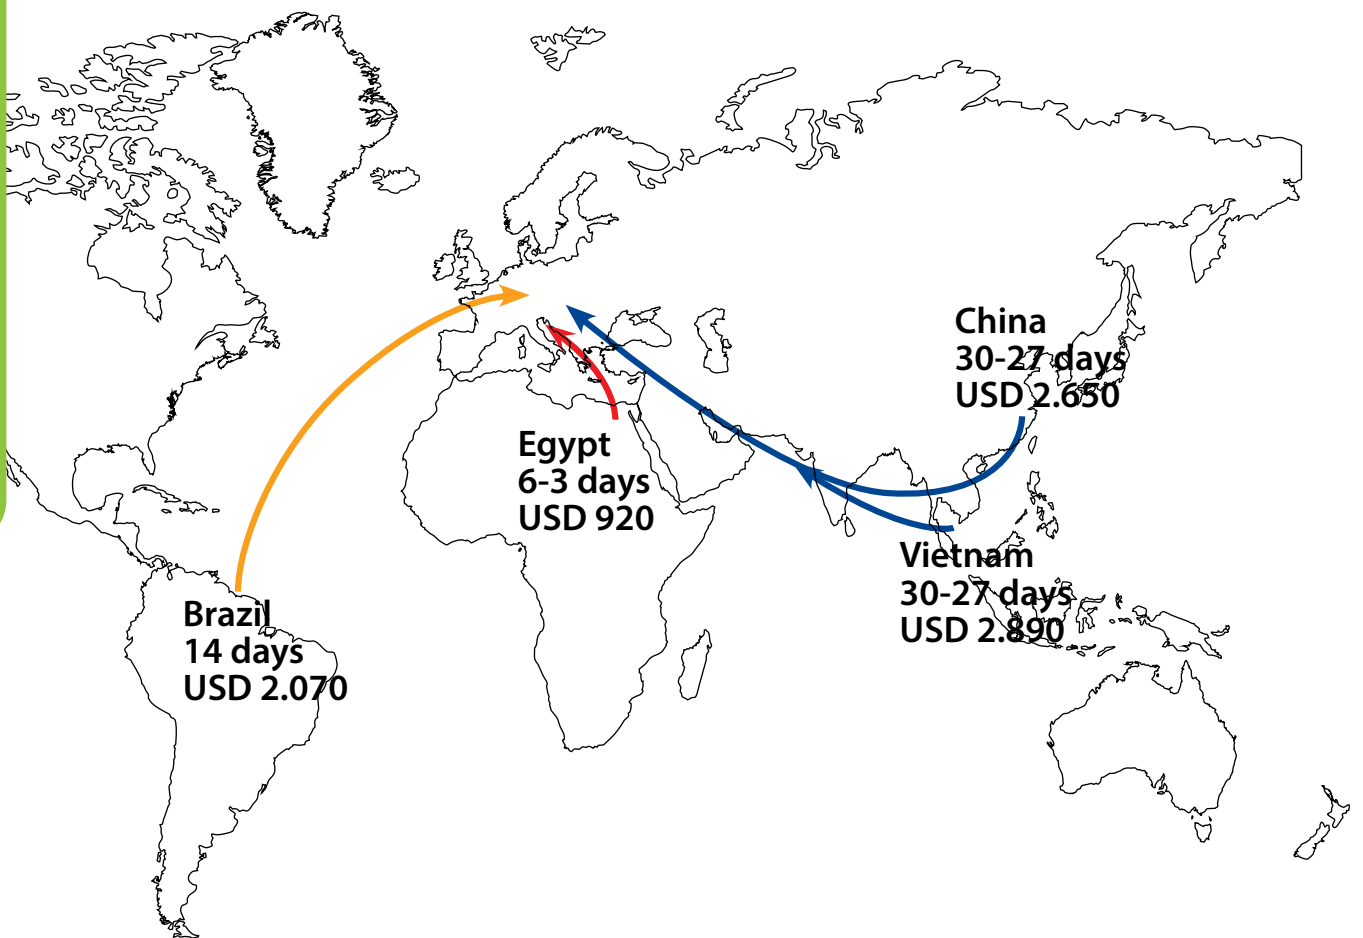

Edu fun® MENA with its headquarters in Egypt is the oldest and largest subsidiary in the Middle East and Africa.

Unique Location

Egypt's unique and advantageous location near Europe (a shipping time of 7 days maximum and flying time of 4 hours maximum) gives its' production facilities in Egypt a privilege over their opponents in East Asia and China. This can save lots of time, money creating new opportunities.

Transportation Cost of 20 ft container to Europe in USD 2010

Euro One

Euro ONE also known as a «movement certificate», enables importers in certain countries to import goods at a reduced or nil rate of import duty under trade agreements between the EU and beneficiary countries. Signed in 2001 it allows Edu fun® products to be shipped from Egypt to Europe. This is another save in costs.

Business Delegations & Factory Visits

Introduction

We Design ...

Since its founding in 1987, the R&D Department has served in the design and improvement of **Edu fun®** Products. The R&D Department leads the company and secures the vision and development of the product, market, and the company's identity. Company R&D collaborates with experts from All over the world to research, develop and demonstrate innovative products or services. Our R&D Department collaborates with our industrial arms to develop and demonstrate innovative concepts.

We Produce

Since we, **Edu fun®** planted the first production seed in Egypt in 1998, we have expanded our production lines to manage the expanding demand of our products and provide wide collection of **Edu fun®** range.

New state of the art machines have been added to our production lines offering quality and on-time development. We are able to develop new product range by the execution of OME products with our factories and our four production lines (solid wood, panel board, tube bending, wooden toys and puzzle).

European material

In the educational furniture & materials sector, **Edu fun**® is a pioneer in developing the concept of importing high quality natural European materials, manufacturing complete products outside Europe, and send back to European market.

Taking advantage of cheap labor in Egypt, we achieved the hard equation:
European materials & quality products / competitive price.

As the most intimate friends of children, toys are of vital importance to the intellectual development and health of children. They are indispensable consumer products during the child's growth.

However, there are some hazards that may bring harm to children and even threaten their health. In view of the particularity of behaviour of children and their development, countries and regions have imposed more stringent requirements for the quality and safety of toys and children's products.

Quick Shipping of European raw materials

Introduction

European standards

Edu fun® commitments to the children has no limits that is why we always care to meet the world's latest standards of safety for our products range. We in Edu fun®, care to comply with the international standards especially strict European CE standards. This is to guarantee we offer safe and healthy products to the pre-school kids of the world.

All our products and production facilities are certified with the international and European standards.

Our Tables' Legs Systems

Table Legs are the constructional system that carry the tabletop in the right positions and levels. For us it has additional functions, as they are indeed an integral part of the look and feel of the table. Table legs are a subtle way to add continuity to the design of furnished spaces, and no table is ever complete without the right set of legs. From wood, metal and plastic, we offer various leg designs, some legs have height adjusting facilities. We also offer flatpack tables that uses modern unique assembling systems.

Tables

Natural Line

Flexo Tables

Premium Line

These flexible movable creative tables combine contemporary looks, functionality as well as flexibility and encourage social behaviour, creativity and cooperation among students. It comes in a variety of unique shapes and sizes. Each shape and size has its merits and benefits, depending on the learning situation. Tables can be combined with each other or with other tables combining a multitude of layouts creating an attractive look. Tables are made of Medium-density fiberboard (MDF) covered by high-pressure laminate (HPL), with PVC edge banding. Legs are either fixed or adjustable to offer different heights, an advantage for mixed age groups.

KG Furniture

Storage Units

Comby Storage Units

This range of storage units is available in 2 versions: lower units and upper units. Some models are available with lower wooden boxes on wheels. These storage units are made of high quality non-scratch, washable, melamine coated, 18 mm thick M.D.F. They come in beech wood patterned melamine with rounded-off rimmed thick plastic edges. Doors, drawers, Frame and Handels are made of natural beech wood and painted with non-toxic paints and Acrylic.

Premium Line

Laminated Doors Colours 

Storage Units

Curvy Storage Units

The colourful acrylic back panels allow the light to shine through, giving charming effects. The unique curved design allows dynamic arrangements such as semicircular, circular and S shape. Modular units help create a variety of combination possibilities. Made of an attractive combination of wood and acrylic. Great as a room divider. Available with coaster to give maximum flexibility in the educational space.
