## Complete Solutions for kindergarten Spaces

EDU FUN welcomes you to its catalogue, which provides a complete solution for pre-school and kindergarten education. In our catalogue you can find a full range of furniture which suits the requirements of children in their early years.

The environment children play and learn in, have a great effect on them. Therefore we believe in the importance of providing practical, suitable and comfortable designs to fulfill the demands of this critical stage. Our modular designs make it easy to set up unique configurations to suit children needs. Attractive and durable designs encourage good posture and ensure years of safe and enjoyable use. Also for your convenience they are designed so you can buy only what you need and then add on to it later. All this we offer at affordable and compatible prices.

We provide a full range of products starting with chairs, tables, storage units and reading corners passing through play corners and role play furniture ending with play screens & boards .

EDUFUN has been expanding lately. We have Subsidiaries companies in Australia, Canada and KSA beside Dubai and Egypt. Our products are available in more than 25 countries through our Distributes.

## The leap

**Edu-Fun** celebrated the opening of its showrooms and offices In September 2016 in **Dubai, UAE**. All international and regional export offices, sales and marketing together with our head offices will be moved to the new location with the beginning of year 2017.

**Edu-Fun** group is restructuring its activities to keep pace with the growing markets to become a leading regional and an international player.

**Dubai** as an international business and logistics hub was our perfect choice to move our head quarter, international & regional sales and marketing activities to it. We are sure that with this step we will provide our customers with better and distinguished services.

Our new **Saudi Arabia** show room will open during the early months of 2017 and it is targeting the huge **Saudi Arabia** educational market with the growing demands of public and private schools.

Also **Egypt`s** sales and marketing office serving the African and Mediterranean markets will have a new look starting year 2107. The attached showroom is a unique turning point concept for the schooling market.

(Please refer to the last page for information on our head office and branches.)

## Production

Since We - **Edu-Fun** - have the first production seed in year 1991 in Egypt, we have expanded our production lines to cope with the expanding demand of our products and provide wide collection of Edu Fun range. New CNC machine centers and painting lines are added for quality and speed development.

We are able to develop new product range by the execution of OEM products with our two factories and four production lines (solid wood, panel board, tube bending, wooden toys and puzzle).

## Lower price... Best quality

**Edu-fun** keeps expanding its production facilities in **Egypt** in order to balance the fast development and changing of world economy with the devaluation of the Egyptian pound during year 2016. As labor intensive products, Edu fun factories become very competitive with its high labor cost and in the same time one of the cheapest in the world.

Shocking to know is that the price of year 2017 is almost **50% less**; it is competitive in a challenging way to find that quality with great specification in such low price.

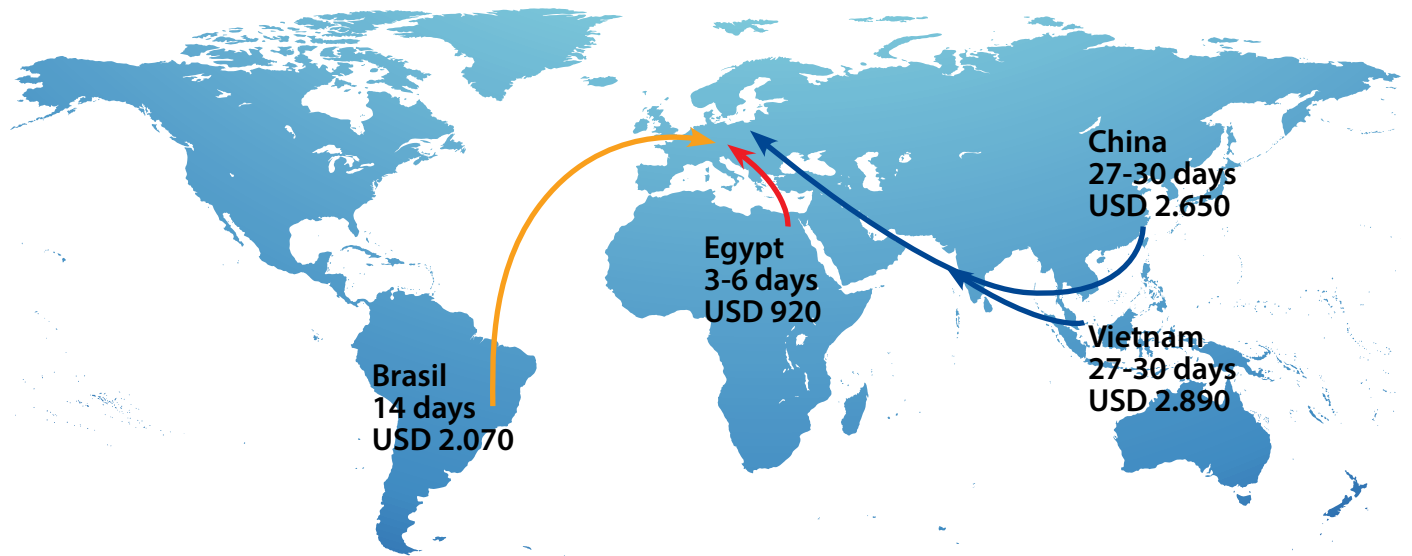

Annual Employee Wages |2010/2011 USD

## Unique location

*Egypt's* unique location and the advantage of being near to Europe with shipping time of **7 days maximum** and flying time of **4 hours maximum** gives **Edu-fun** factories in **Egypt** the privilege over their opponents at east Asia and China factories. This can save lots of time, money and create new opportunities.

Transportation Cost of 20 ft container to Europe in USD 2010

## European material & standards

**Edu-fun** was the first factory in the world to import European materials such as (beech wood, plywood, paints) then process, manufacture and send them back to the European market and the case remains as it is. On the other hand, other countries using local cheaper options.

All of our products and production facilities are certified with international and Europe standers.

## New products

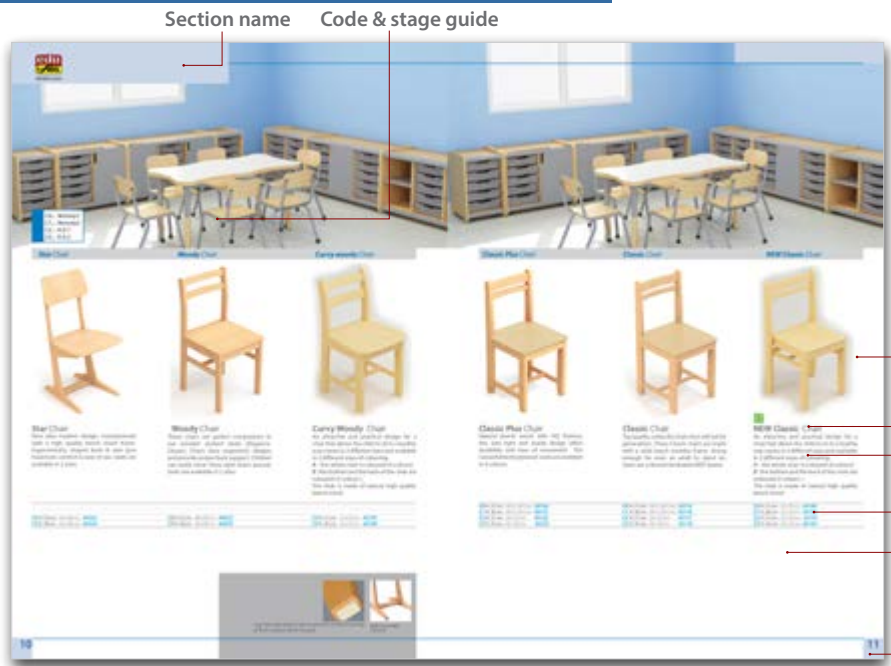

We are proud to introduce 200 new products to our exiting range in 2017.

As a result of the smooth collaboration of international designers and our professional in house designers and engineers, we have new ranges in furniture and wooden toys, and finally our new Montessori collection.

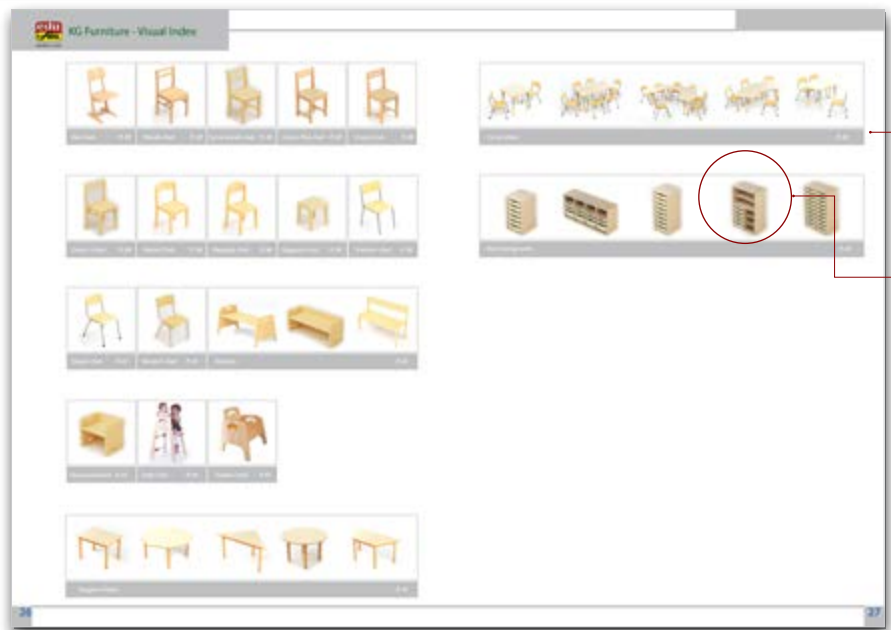

**Edu-fun**, In the Celebration of 25 years of existence in the international market, thanks her current and new clients and promises to continue developing and improving to remain as it is as, the top manufacturer in the region.

# Flexi Storage Units

**NEW**

Our perfectly flexible storage units offer a lot of options and arrangements. All units are 40 cm deep to link them together and create a multitude of layouts with different heights. Designed empty to complete with storage wooden trays, or plastic trays (with anti-fall safety runners) . The shelves are extremely resistant and designed to support the weight of heavy books and objects. Made of Medium-density fiberboard (MDF) and melamine coated on both sides , doors coated by high pressure laminate (HPL) , with ABS edge banding . Available in single, double, triple and quadruple unit can be assembled upon request.
