## Montessori Line

***“Within the child lies the faith of the future”  
Maria Montessori***

We would like to introduce our first collection of Montessori products for year 2019. This step was not fortuitous; but was the outcome of our belief in education. We see education as the only way for a brighter future. Therefore we haven't limited our job in manufacturing innovative high quality educational toys and furniture, but we went a farther step and contributed in the society by establishing schools all over the county.

Seeking the best we choose The Montessori Method and established the first and only Montessori school in Egypt. The main concept of Montessori is to promote the joy of learning. This joy of learning develops a well-adjusted person who has a purpose and direction in their life. Children, who experience the joy of learning, are happy, confident, fulfilled children.

Dr. Maria Montessori is without any doubt one of the greatest names in education. Her ideas have been

an inspiration for people working in pre-school and primary education. Therefore it will always be a great honor for us that she was influenced by Egypt antiques and used the pyramid in the Grammar symbols.

In 1981, Mrs. Marguerite Richardt, who studied under a trainee of Dr. Maria Montessori herself, came to Egypt and opened the first Montessori preschool. She also taught and inspired generations of adults by offering the Montessori diploma for early childhood over the years. Mrs. Marguerite has been our guide through our trip in school and manufacturing Montessori teaching materials. We worked together to establish the right Montessori method in Egypt.

## Welcome to our world

The background of our company goes back a long way, as the founders were educators with many years of experience in establishing schools. They believed in education as the best way for developing societies and people. This belief was the motivation to establish our company, and is still driving it through years and years of success

## Children are our priority

Our products are always designed with children in mind. With our experience in the educational field, we understand carefully children's needs and how educational toys can stimulate their development. Educational toys should be inviting, environments that make children feel good to be there.

## We listen carefully

At Edu Fun®, we strive to serve and support our customers around the world. We always listen to our customers concerns and demands. We develop our products upon their needs.

## We care about our environment

Since the first day, we chose to use wood in our production, to create a healthy warm environment for children. Wood is the most environmentally friendly raw material, which are healthy for our climate, prevent climate changes and has Zero Waste. The beauty of wood is that it engages all of our senses. It is warm, rich and affecting, and its surface has a tactile and sensuous strength. We use real wood from sustainable forestry to help protect our environment. Contributing to the preservation of the environment is one of our responsibility.

## Production

Since Edu Fun® first began, we have been expanding our production lines to fulfill growing demand. Likewise, the collections of the Edu Fun® range have been continuously expanding to meet our customers' desires.

New state of the art machines have been added to our production lines offering quality and on-time production. We are able to develop new product ranges with the execution of OME products with our factories and our four production lines (solid wood, panel board, tube bending, wooden toys and puzzle).

- 1- Solid Wood Production Line
- 2- Panel Board Production Line
- 3- Tube Bending Production Line
- 4- Educational Resources Production Line

## Materials

Edu Fun® aims to build sustainable long-lasting furniture for the most active and ruthless children. Besides smart designs, durability depends on using the highest quality materials. To that end, Edu fun® imports high quality natural European Beech wood and the longest lasting non-toxic German paints safety lacquers. We spare no expense to make certain you're getting the best products made of the highest quality materials.

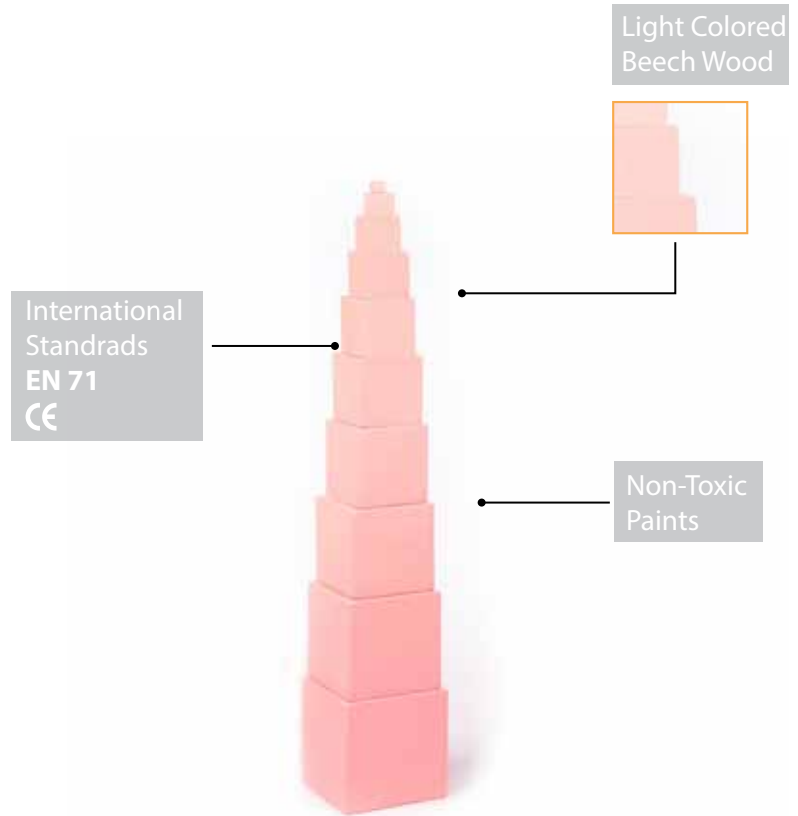

## Design

Edu Fun® designs educational toys for preschool and kindergarten children, for educators, for learning institutions, to make everyone at your school safe, happy and comfortable from the start of the day till the last moment of the day.

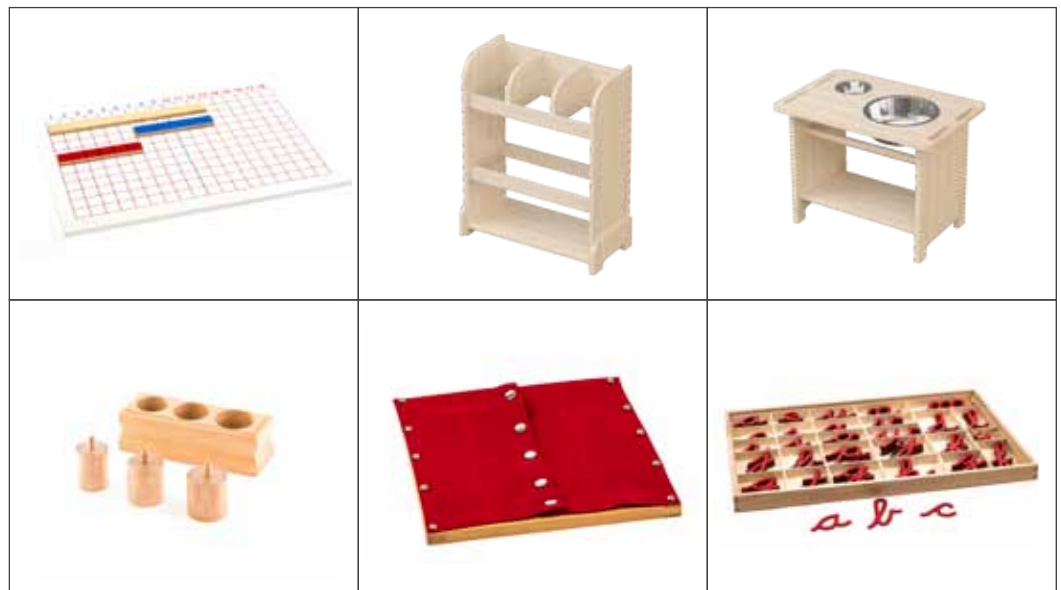

Edu Fun® designs are synonymous with creative, versatile, and developing learning skills. Our Research and Development Department has collaborated with experts from all-over the world to research, develop and create innovative products.

The finest materials, vibrant colors and exquisite textures come together for relentless beauty. Durability for toys that looks new for years to come. Edu Fun® designed for you all that you dream of in your preschool and kindergarten.

## Dreams can come true

We have a very wide range of products that can provide any customer with what they need. Our products cover almost all educational aspects. However, sometimes special specifications are requested. With our production capabilities, we can make your dreams come true.

## Standards

Edu Fun® meets the latest high international standards of safety for our whole product range. Compliant with international standards, even the strict European CE standards, our products are safe for preschool and kindergarten children. We worry about your children's safety, so you do not have to. All of our products and production facilities are certified with the following international and European standards:

- EN 71
- ISO 9001
- ISO 14001
- OHSAS 18001

EN 71

- ISO 9001
- ISO 14001
- OHSAS 18001

## Central Location

Edu Fun® produces and ships from the historic hub of trade and shipments. Egypt with northern ports on the Mediterranean Sea to serve Europe and the Americas and eastern ports on the Red Sea to serve Africa, Asia and Australia is centrally located, meaning you get your order in record time.

## Come Visit Us

We love getting visitors. Come to Egypt to see our facilities and see the Pyramids and Coral Reefs while you are here, or vice versa. Either way stop by and say hi. Coming with a large group? Schedule a tour of the manufacturing facilities. Come see where dreams are transformed into reality.

Prefer to play and shop than see manufacturing sites? Come to Dubai and visit us in our largest worldwide showroom. More of a playground than a showroom, let your imagination run wild, then run wild after it. Arrange and rearrange as much as you like. Try out every chair and table. Let the child in you have fun designing your own learning space.

## Trade agreements

Egypt is a signatory to several multilateral trade agreements, which give a great potential to its export products. Egypt's Membership in Multilateral Trade Agreements includes Agadir, the Common Market for Eastern and Southern Africa (COMESA), the Euro-Med Partnership and the Greater Arab Free Trade Area (GAFTA).

### Euro.1

Euro.1 also known as a movement certificate enables importers in certain countries to import goods at a reduced or nil rate of import duty under trade agreements between the EU and beneficiary countries. Signed in 2001 it allows products to be shipped from Egypt to

## Montessori Infants

« He does it with his hands, by experience, first in play and then through work. The hands are the instruments of man's intelligence »  
Maria Montessori, The Absorbent Mind.

Children at this age have an absorbent mind. Therefore, we must make the environment, surrounding them, as interesting and attractive as we can. All the Montessori infants and toddler materials stimulate children's senses and help them absorb, concentrate and master the new knowledge learned.

# Practical Life

“The mind has formed itself by a special exercise of attention, observing, comparing and classifying.” Maria Montessori, 1922

The sensorial materials are designed to draw the child’s attention to one single property, stimulating the development of the senses and muscle coordination. It is also self-corrected; therefore the child can work completely independently. Through sensorial materials the child learns the foundation of important concepts.

# Montessori Language

“Children are able to absorb language from their environment and easily learn how to speak, read and write if language in its various forms is present in their environment during the period of the Absorbent Mind” Maria Montessori, The Absorbent Mind.

Montessori language materials allow children to discover and explore the language properties. Accordingly they learn to read and write in the simplest way.

# Montessori Mathematics

"The child's mind is not prepared for number 'by certain preliminary ideas' given in haste by the teacher, but has been prepared for it by a process of information, by a slow building up of itself" Maria Montessori, 1914

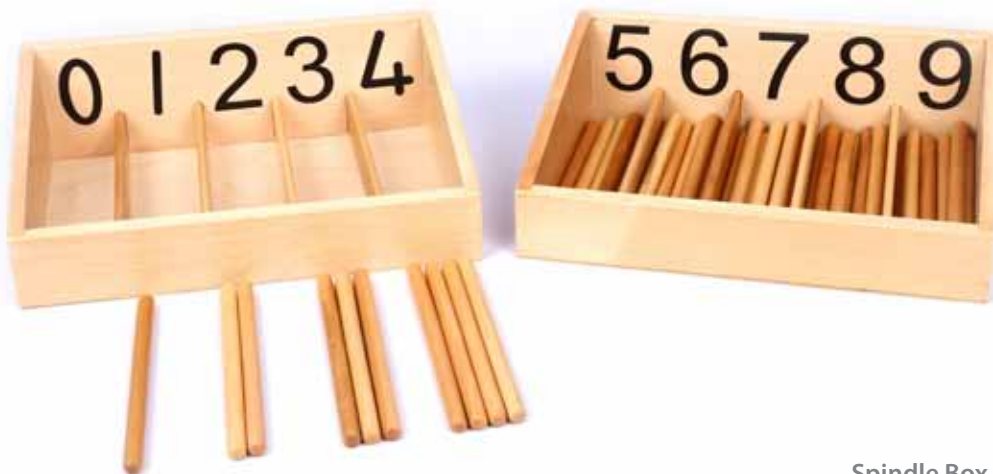

Although the Montessori mathematical materials look simple but they are very effective. By working with them children can identify mathematical relations and laws and discover for themselves the rules governing them.
