Introduction

"Within the child lies the faith of the future"

Maria Montessori

We would like to introduce our first collection of Montessori products for year 2019. This step was not fortuitous; but was the outcome of our belief in education. We see education as the only way for a brighter future. Therefore we haven't limited our job in manufacturing innovative high quality educational toys and furniture, but we went a farther step and contributed in the society by establishing schools all over the county.

Seeking the best we choose The Montessori Method and established the first and only Montessori school in Egypt. The main concept of Montessori is to promote the joy of learning. This joy of learning develops a well-adjusted person who has a purpose and direction in their life. Children, who experience the joy of learning, are happy, confident, fulfilled children.

Dr. Maria Montessori is without any doubt one of the greatest names in education. Her ideas have been an inspiration for people working in pre-school and primary education. Therefore it will always be a great honor for us that she was influenced by Egypt antiques and used the pyramid in the Grammar symbols.

In 1981, **Mrs. Marguerite Richardt**, who studied under a trainee of Dr. Maria Montessori herself, came to Egypt and opened the first Montessori preschool. She also taught and inspired generations of adults by offering the Montessori diploma for early childhood over the years. Mrs. Marguerite has been our guide through our trip in school and manufacturing Montessori teaching materials. We worked together to establish the right Montessori method in Egypt.

Welcome to our World

The background of our company goes back a long way, as the founders were educators with many years of experience in establishing schools. They believed in education as the best way for developing societies and people. This belief was the motivation to establish our company, and is still driving it through years and years of success.

Children are our priority

EduFun® products are always designed with children in mind. With our experience in the educational field, we understand carefully children's needs and how classroom furniture can stimulate their development. Classrooms should be inviting, environments that make children feel good to be there.

We listen carefully

At EduFun®, we strive to serve and support our customers around the world. We always listen to our customers concerns and demands. We develop our products upon their needs. You will find our furniture is modular and able to adjust in order to be able to change the learning environment all the time.

We care about our environment

Since the first day, we chose to use wood in our production, to create a healthy warm environment for children. Wood is the most environmentally friendly raw material, which are healthy for our climate, prevent climate changes and has Zero Waste. The beauty of wood is that it engages all of our senses. It is warm, rich and affecting, and its surface has a tactile and sensuous strength. We use real wood from sustainable forestry to help protect our environment. Contributing to the preservation of the environment is almost of our responsibility.

Production

Since EduFun® first began, we have been expanding our production lines to fulfill growing demand. Likewise, the collections of the EduFun® range have been continuously expanding to meet our customers' desires.

New state of the art machines have been added to our production lines offering quality and on-time production. We are able to develop new product ranges with the execution of OME products with our factories and our four production lines (solid wood, panel board, tube bending, wooden toys and puzzle).

- 1- Solid Wood Production Line
- 2- Panel Board Production Line
- 3- Tube Bending Production Line
- 4- Educational Resources Production Line

Materials

EduFun® aims to build sustainable long-lasting furniture for the most active and ruthless children. Besides smart designs, durability depends on using the highest quality materials. To that end, EduFun® imports high quality natural European Beechwood and the longest lasting non-toxic German paints safety lacquers. We spare no expense to make certain you're getting the best products made of the highest quality materials.

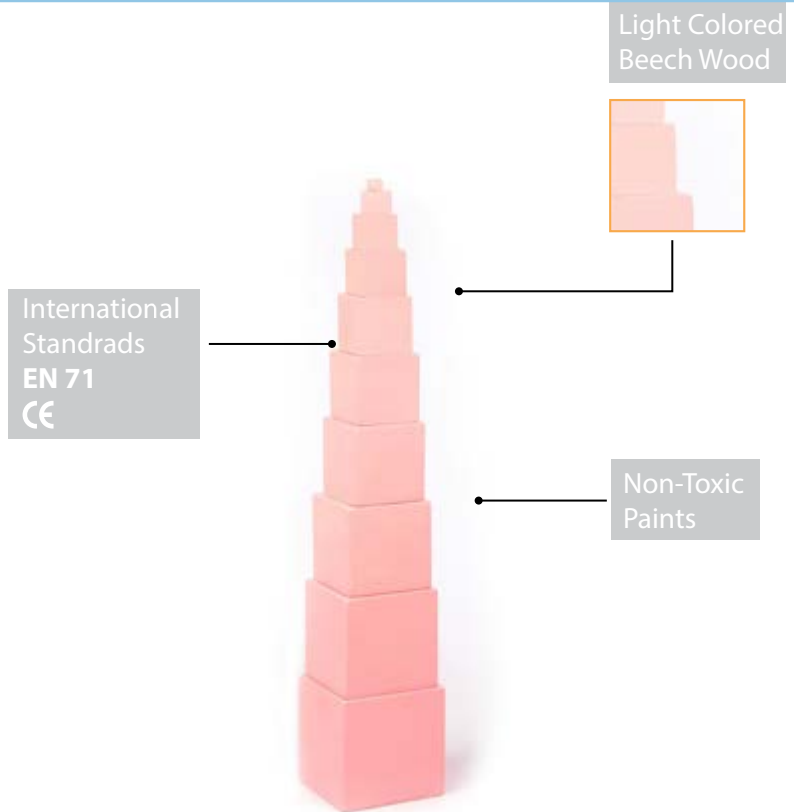

Design

EduFun® designs furniture for preschool and kindergarten children, for educators, for learning institutions, to make everyone at your school safe, happy and comfortable from the start of the day till the last moment of the day.

EduFun® designs are synonymous with creative, versatile, and practical learning spaces. Our Research and Development Department has collaborated with experts from all-over the world to research, develop and create innovative products.

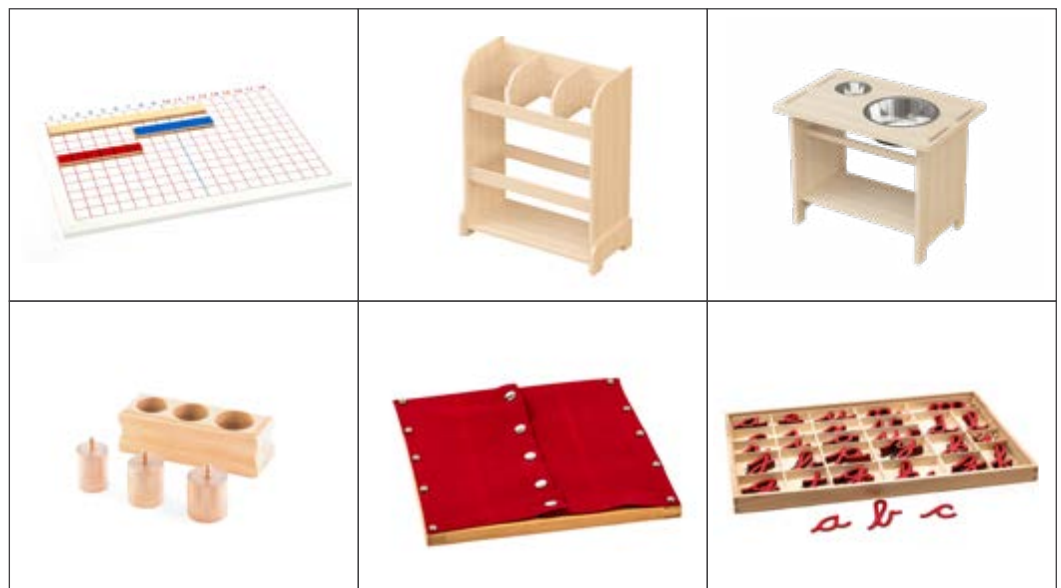

Ergonomically designed furniture for growing children. Storage units of all kinds for organized and efficient classrooms. Reading Centres, play corners and role play furniture for a complete and holistic learning experience. The finest materials, vibrant Colours and exquisite textures come together for relentless beauty. Durability for furniture that looks new for years to come. EduFun® designed for you all that you dream of in your preschool and kindergarten learning spaces.

The colours, design & specifications in this catalogue may not corresponded to the actual ones. Edu fun reserves the right to change any specifications and make upgrades of its products at any time without notice. Information in this catalogue was correct at the time of printing. While our team has made every effort to ensure the accuracy of information, Edu fun cannot accept any responsibility for any errors or omissions and this catalogue does not oblige of any form of contract.

Dreams can come true

We have a very wide range of products that can provide any customer with what they need. Our products vary from chairs, tables, storage units, platforms and role play furniture. However, sometimes special specifications are requested. With our production capabilities, we can make your dreams come true.

International Standards

EduFun® is keen on our childrens' health and for that reason the product range and production facilities are certified by meeting the latest high international standards of safety such as:

- EN 71
- ANSI/BIFMA
- ISO 9001
- ISO 14001
- OHSAS 18001

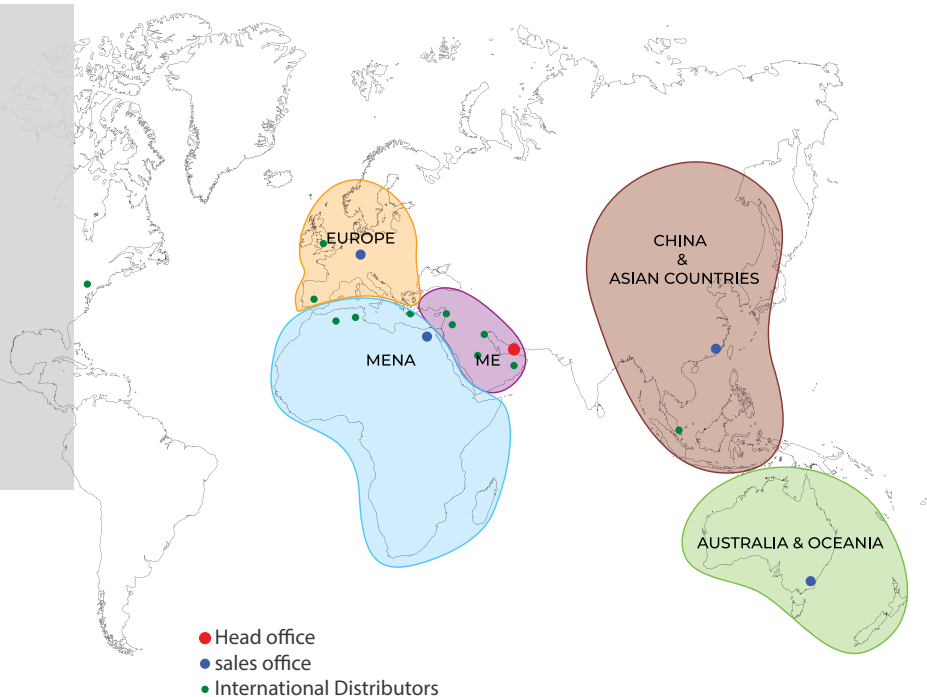

EN 71

ISO 9001
ISO 14001
OHSAS 18001

Central Locations

Edu fun® group is streamlining its activities to keep pace with the growing markets and is becoming a leader in the region and as an international player. As a place to do business, and as a hub for the region and beyond, the United Arab Emirates (UAE) continues to be increasingly important, relevant and attractive to businesses from around the world. For these reasons, we have moved our head office to UAE. EduFun® produces and ships from Egypt, the historic hub of trade and shipments. With its northern ports on the Mediterranean Sea to serve Europe and the Americas and eastern ports on the Red Sea to serve Africa, Asia and Australia is centrally located, meaning you get your order in record time.

Visit Us

Our customers are warmly invited to visit our factory in Egypt or any of our subsidiaries in Germany, Australia or China. We are pretty sure that visiting our integrated manufacturing complex will leave a positive impression on you.

We are not just a manufacturer but we are artists as well. You can feel yourself that when you meet in person with our skilled workers under a supervision of well-educated professional engineers and how they are working with the latest technological machinery and how they turn a piece of tree into a piece of art.

What benefits can you get from buying from us?

Zero Customs duty is one of the most advantages that you can get if you import directly from Egypt and that's why we have established our factory in Egypt from the early beginning as Egypt is a signatory to several multilateral trade agreements, which give a great potential to its export products. The following are the "Trade Agreements" which between Egypt as country of Export and the whole world :

- Egypt - EU Partnership
- Mercosur Agreement
- COMESA Agreement
- EFTA Agreement
- Egypt – Turkey Free Trade Agreement
- Agadir Agreement
- League of Arab States
- Generalized system of preferences (G.S.P)
- Generalized System of Trade Preferences (G.S.T.P)

Montessori Infants

« He does it with his hands, by experience, first in play and then through work. The hands are the instruments of man's intelligence » Maria Montessori, The Absorbent Mind.

Children at this age have an absorbent mind. Therefore, we must make the environment, surrounding them, as interesting and attractive as we can. All the Montessori infants and toddler materials stimulate children's senses and help them absorb, concentrate and master the new knowledge learned.

Practical Life

“The mind has formed itself by a special exercise of attention, observing, comparing and classifying.”
Maria Montessori, 1922

The sensorial materials are designed to draw the child’s attention to one single property, stimulating the development of the senses and muscle coordination. It is also self-corrected; therefore the child can work completely independently. Through sensorial materials the child learns the foundation of important concepts.

Montessori Language

“Children are able to absorb language from their environment and easily learn how to speak, read and write if language in its various forms is present in their environment during the period of the Absorbent Mind” Maria Montessori, *The Absorbent Mind*.

Montessori language materials allow children to discover and explore the language properties. Accordingly they learn to read and write in the simplest way.

Montessori Mathematics

“The child’s mind is not prepared for number ‘by certain preliminary ideas’ given in haste by the teacher, but has been prepared for it by a process of information, by a slow building up of itself” Maria Montessori, 1914

Although the Montessori mathematical materials look simple but they are very effective. By working with them children can identify mathematical relations and laws and discover for themselves the rules governing them.
