# Introduction

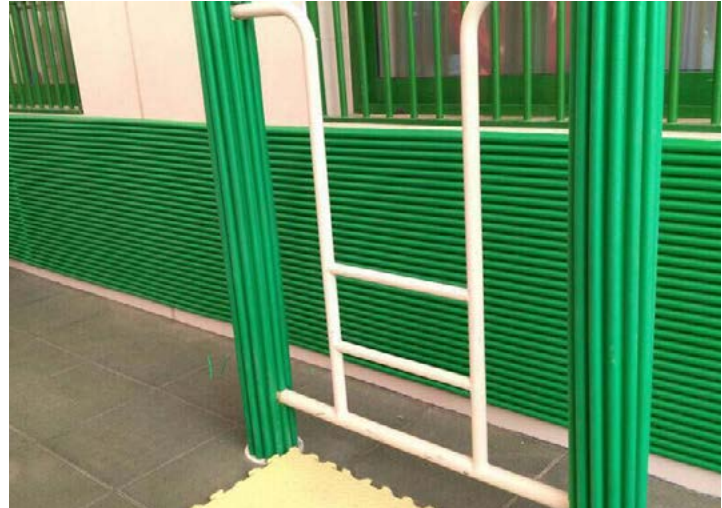

Children learn by exploring their environment but their exploring should happen in safe places. Pulling up, standing, crawling, walking, climbing and running are children's skills to explore and test their environment.

The children's safety is an obligation for everyone who works or deals with children. A safe environment supports teachers and caregivers to minimize the probability of accidents is necessary. We are always looking for creating a safer environment for children.

At schools, kindergartens, child day-care, playing centres and everywhere children are there; safety is a priority. An accident can happen at any place at any time. However, with safety products we are building a safer world for children and preventing painful and serious accidents to happen.

Safespazes will help you find the appropriate solution to prevent the most common risks present in day care centres and schools, thus avoiding the risk of serious damage.

These exploring and playing children need supervision every minute of the day. A safe environment supports teachers and caregivers to minimize the probability of accidents.

# Finger Alert

## Finger Alert 110°

Prevents fingers from getting pinched between the door and doorframe by using the Finger Alert door finger guards! It is a quick and child safe solution to cover gaps between doorframes and doors. These door strips fit all doors and frames because of the transparent material. Cover door openings of doors that open up to 110° easily with these transparent finger door guards. Happy fingers with Finger Alert!

Transparent matches every door

# Corner Guard

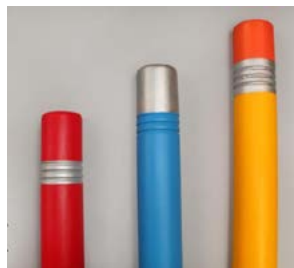

## Corner Guard

A collision with a sharp angle or edge can have serious consequences for children. The robust material of the Corner Guard Deluxe absorbs the heaviest crashes allowing children to come of well from an accident. These colorful corner protectors are designed for schools, kindergartens and playgrounds to shield sharp corners or edges, both inside and outside. In an environment where children are playing we have an accident waiting to happen, therefore Corner Guard protectors are essential.

## Corner Guard Pencil

The playful design of the Corner Guard Deluxe Pencil makes this corner protector a true eye-catcher. This weatherproof pencil is the ideal corner protection for schools, kindergartens and playgrounds. A fall against a sharp edge or corner easily results in a visit to the doctor. Avoid nasty injuries by protecting dangerous corners and edges with the Corner Guard Pencil

## Accessories

### Finger Alert Door Blocker

The Finger Alert Door Blocker is a simple but effective solution against finger entrapment. Make doors safer by attaching this door blocker over the door handle. Turn the door buffer in horizontal position and prevent a door from closing. Close the door by turning the hand in a vertical position. This finger protection for doors is easy to install, saving you a lot of time and accidents. This cheerful hand against finger entrapment is the ideal complement for child-proofing doors.

### Door stopper

Stop doors temporarily with this cute red foot. The Finger Alert Door Stopper keeps the door from slamming and prevents painful and serious injuries to the fingers of children.
