WOODEN TOYS
2025

INTRO

We are delighted to introduce our 2023 range providing children around the world with toys that stimulate their imagination, increase their knowledge and enhance their mental and physical development.

We believe that a toy should not only be for playing but it is an important tool in the development of a child's self confidence, intelligence and creativity. Our toys are designed by specialists' who understand child development and how toys can stimulate that development at each stage of a child growth.

We use only the best, natural, high quality materials which include European beech wood and German paints and varnishes. All the different stages in making and packaging our high quality products are carried out in our own factories.

Edu fun® has been expanding lately. We have Subsidiaries companies in Australia and KSA beside Dubai and Egypt. Our products are available in more than 25 countries through our Distributes.

Welcome to our World

Welcome to the EduFun® Furniture World. Explore our newly updated 2023 catalogue, featuring a variety of new products for preschool and early learning environments. With 25 years of experience in the global market, we are dedicated to fulfilling our mission of creating better early learning environments.

Children are our priority

At EduFun®, our products are always designed with the well-being of children in mind. With our background in education, we carefully evaluate children's needs and how our furniture can enhance their growth. Classrooms should be inviting spaces that make children feel comfortable and happy.

We listen carefully

At EduFun®, our goal is to serve and support our customers worldwide. We listen attentively to our customers' needs and desires, and we tailor our products to meet them. Our furniture is modular and adjustable, allowing for a flexible learning environment.

We care about our environment

From the beginning, we have chosen to use wood in our production process to create a healthy and warm environment for children. Wood is the most eco-friendly material, beneficial to the climate, helps combat climate change and creates zero waste. Its warmth, richness, and sensory appeal make wood a unique and beautiful material. We use real wood from sustainable forestry to help protect our planet and consider it our duty to contribute to environmental preservation.

Production

Since EduFun® first began, we have been expanding our production lines to fulfill growing demand. Likewise, the collections of the EduFun® range have been continuously expanding to meet our customers' desires.

New state-of-the-art machines have been added to our production lines offering quality and on-time production. We can develop new product ranges with the execution of OME products with our factories and our four production lines (solid wood, panel board, tube bending, wooden toys and puzzle).

- 1- Solid Wood Production Line
- 2- Panel Board Production Line
- 3- Tube Bending Production Line
- 4- Educational Resources Production Line

Materials

EduFun® aims to build sustainable long-lasting furniture for the most active children. Besides smart designs, the durability depends on using the highest quality materials. To that end, EduFun® imports high quality natural European beechwood and the longest lasting non-toxic German lacquers. We spare no expense to make certain you're getting the best products made of the highest quality materials.

Design

Edu Fun® designs educational toys for preschool and kindergarten children, for educators, for learning institutions, to make everyone at your school safe, happy and comfortable from the start of the day till the last moment of the day.

Edu Fun® designs are synonymous with creative, versatile, and developing learning skills. Our Research and Development Department has collaborated with experts from all-over the world to research, develop and create innovative products.

The finest materials, vibrant colors and exquisite textures come together for relentless beauty. Durability for toys that looks new for years to come. Edu Fun® designed for you all that you dream of in your preschool and kindergarten.

Dreams can come true

At EduFun®, we believe that dreams can come true, which is why we offer a wide range of products that can meet any customer need. Our product line includes chairs, tables, storage units, platforms, and role play furniture, but we also offer custom production services to fulfill special specifications.

International Standards

At EduFun®, we prioritize the health and safety of children, which is why we ensure that all of our products and production facilities meet the latest international standards for safety. Our products are certified to meet standards such as

- BS EN 1729
- ANSI/BIFMA
- ISO 9001
- ISO 14001
- OHSAS 18001

ISO 9001

EDUCATIONAL TOYS

The early Pre-school years before formal education are the most formative for children. Their little minds are wide open and ready to accept any knowledge and information that they are subjected to. Edu Fun® believes that enhancing and advancing children's development during these crucial years is essential to build up strong foundation for a life-time of learning success. Edu Fun® has designed products for both pre-school and older children to help them explore and discover their world.

EDUCATIONAL TOYS

DRAMATIC PLAY

Step into the world of a child's imagination. Role play may appear to be a very simple activity, yet through it, young children learn practical life skills and building their character. Children have a very good sense of imagination and dramatic play tools enhance this sense. In this section we designed scaled down furniture, which helps children imagination to come alive.
